CHEMICAL ENGINEERING

WITH CHEMICAL & METALLURGICAL ENGINEERING

Chemical & Metallurgical Engineering became *Chemical Engineering* in August 1946.

Chemical & Metallurgical Engineering was the successor to *Metallurgical & Chemical Engineering*, which, in turn, was a consolidation of *Electrochemical & Metallurgical Industry* and *Iron & Steel Magazine*. The magazine was originally founded as *Electrochemical Industry*.

McGRAW-HILL PUBLISHING COMPANY, INC., NEW YORK CITY

Volume 60

January to December, 1953

GENERAL ALPHABETICAL INDEX

A

Absorption—Hi-purity liquid sulfur dioxide from roaster gases (flowsheets) ..... Apr. *278
What every engineer should know about packed tower operations. F. A. Zenz ..... Aug. *176
Acetic acid—Celanese producing acetic acid by new process (N) ..... Jan. 142
Three new ways to produce (P) .. Dec. *350
Acetophenctidin—pharmaceutical preparations ..... May 272
Acetylene—Acrylics from acetylene and carbon monoxide at Rohm & Haas' new plant (N) ..... Apr. *114
Joins petrochemicals ..... Mar. *206
Acids—Glacial methacrylic acid ..... Jan. 227
Acrylic dispersion in water for emulsion paints ..... June 271
Acrylics—Rohm & Haas new process makes acrylics from acetylene and carbon monoxide (N) ..... Apr. *114
Acrylonitrile—Goodrich builds plant at Calvert City, Ky. (N) ..... Oct. 154
Monsanto producing acrylonitrile at Texas City (N) ..... Apr. 126

Adhesives:

Bonding agent for metals ..... Feb. 229
Bonding between porous and nonporous surfaces ..... Apr. 264
Bonding vinyl plastics ..... Jan. 230
Organic salt suggested as sequestrant, emulsion stabilizer and antioxidant. May 270
Waterproof, high heat resistant adhesive ..... Aug. 330
Adipic acid to be made by Du Pont in cheaper way (N) ..... Sept. 142

Adsorption:

Adsorption techniques ..... Apr. 350
Continuous adsorber for solids and gases (P) ..... Aug. *342
Continuous adsorption methods (P) Oct. *384
Silica gel removes aromatics (P) Feb. *374
Agitation—Novel solution for agitating problem (P) ..... Sept. *394
Agricultural chemicals—Feast or famine—agricultural chemicals hold key. Dec. *323
Uses broadened (chart) ..... Mar. 199
Air pollution see Dust and fume handling

Alcohol:

Butadiene from alcohol plant (N) Mar. 126
Extractive distillation of close-boiling alcohols (P) ..... Apr. *284
Fatty alcohol from tallow (N) .. Mar. *118
Fermentation ethanol sales halted (N) ..... Jan. 146
Furfuryl alcohol produced by Quaker Oats at Memphis (N) ..... Dec. 150
High purity alcohols via improved method (P) ..... Nov. 358
Isopropyl alcohol and acetone to be made in Canada by Shell Oil (N) July 131
Octyl alcohol manufacture (P) .. Aug. *346
Primary amyl alcohols of interest to plasticisers ..... Dec. 332
Process to purify fermentation alcohols (P) ..... Nov. 358
Trimethylol ethane, a glycerine substitute (A) ..... Sept. 381
Alkyl chlorides from waste hydrogen chloride (P) ..... Oct. *392
Alkyl phosphites as corrosion inhibitors. Jan. 227
Alumina—Electrolytic process cuts cost of alumina from clay (N) .... Aug. 146

Aluminum:

Copper-clad aluminum ..... Aug. 336
Kaiser plant at Chalmette, La. turning out aluminum (N) ..... Nov. 156
Output of aluminum climbs to three-way, all time record ..... July 332
Producers settling records ..... Oct. 358
Reduction plant for bauxite processing feature giant pots (N) .... Apr. *128
American Chemical Society. Surveys engineers salaries ..... Nov. 259
American Inst. of Chemical Engineers. Nuclear processes to be studied (N) May 128
American Management Assn.—training executives ..... Dec. *258
American Society for Quality Control. Statistics on the move in the process industries discussed at convention ..... Dec. *118
Amines — Glyceryl amines — production (chart) (P) ..... Mar. 390
Amino acids—B complex market shifts—Goodrich plant for beta-alanine (N) ..... Jan. *116
Du Pont to make synthetic methionine (N) ..... Mar. 128

Ammonia:

Allied Chemical & Dye gets gas supply for Omaha ammonia plant (N) Sept. 130
Anhydrous ammonia plant to be built in Salt Lake City (N) ..... Oct. 162
Brea Chemicals, Calif. constructing ammonia plant (N) ..... July 139
New ammonia plant in Louisiana (N) Aug. 136
New plants and facilities under way 1952—report (table) ..... Feb. 178
Outlook for ammonia ..... June 363
Purify gas for synthesis of ammonia with generators (N) ..... June 139
Quaternary ammonium compounds in metal ..... Dec. 334
Shell Chemical Corp. at Ventura, Calif. completing new plant (N) July 128
Synthetic gas for production of ammonia freed of carbon monoxide by scrubbing with liquid nitrogen (N) ..... July *133
Welded scrubbing towers for ammonia plant cleaning (N) .... June 146
Ammonium nitrate—Commercial Solvents Corp. nitric acid plants to make solid ammonium nitrate by the new one-step Stengel process (N) .. Nov. *150
Ammonium sulphate—Crystallizer (P) Jan. *339

Antibiotics:

Bacteria and mold control ..... May 272
Bacitracin flowsheet ..... June *282-286
New antibiotics ..... Dec. 333
Antioxidant for gasoline ..... May 265
Areas of irregular shapes estimated with sheet plastic. C. E. Ballard (P.N.) ..... Sept. 234

Aromatics:

Aromatics from coal flowsheet—coal hydrogeneration pilot plant ... Dec. *250
Aromatics from thermal-cracked wood tar (P) ..... Mar. 388
Coal chemicals enter new era (chart & tables) ..... Mar. 195
Du Pont sells its aromatics and compound business (N) ..... Dec. 148
Platreater operated with a Platformer and a Udex solvent extractor increases aromatics recovery (N) ..... Sept. *172
Silica gel removes aromatics (P) Feb. *374
Asphalt—American Bitumuls & Asphalt Co. to build plant (N) ..... Dec. 128
Asphalt additive (A) ..... Nov. 333

Atomic Energy Commission:

Cryogenic Engineering Laboratory makes liquid hydrogen for use in low temperature problems (N) Nov. *134
Dow Chemical Co. operating plant at Rocky Flats, Colo. (N) ..... Nov. 158
Lake Ontario Ordnance Works to be run by Hooker Electrochemical Co. (N) ..... Oct. 160
Nuclear reactor project adds 12 companies (N) ..... July 144
Spoon River plant will process explosives (N) ..... Apr. 125
Union Carbide & Carbon signs new contract to operate additional facilities (N) ..... Nov. 160

Atomic Power:

Atomic engineering ..... Apr. 337
Atomic energy at the crossroads Mar. *214
Atomic problems ..... Jan. 308
Better materials sought for nuclear reactors (N) ..... Apr. 146
Concentrated power clue to future atomic reactors (N) ..... Sept. 162
Cyclotron at Oak Ridge will fuse lighter elements (N) ..... May 137
Electron linear accelerator to probe deeper into the atom at Stanford (N) ..... Oct. 156
Industry teams report on A-power—Commonwealth Edison-Public Service report. Dow Chemical-Detroit Edison report ..... July *133

NOTES—(A) Abstract; (c) Comment; (ed) Editorial; (E.N.) Equipment, News. * Illustrated; (N) News; (P.N.) Plant Notebook

Monsanto-Union Electric report, Pacific Gas-Bechtel report....Aug. *188
Latest atomic reactor.....Aug. 123
Liquid sodium for nuclear reactors (N).....Aug. *122
New plants and facilities under way 1952—report (table).....Feb. 176
Power reactors to get green light (N).....May *138
Reactor at Houston, Tex., refinery inspected by radioactive isotopes (N).....Sept. 138
Westinghouse to invest in atomic manufacturing plant (N).....July 135
Aureomycin feed weighed and bagged at Pearl River, N. Y. (N).....Sept. *130
Australia—Expanding chemical industry (N).....Mar. 137
Autoclaves—Using plug valves to produce motion inside autoclaves. A. W. Billitzer (P.N.).....Mar. *232
Automatic plants—Synthetic petroleum cracking catalyst to be made at automatic plants (N).....June 152
Technical outlook is a bold one..Mar. 286
Awards—Chemical Engineering Achievement Award goes to Carbide & Carbon Chemicals Co. for coal hydrogenation .....Dec. *177
Lammot du Pont Safety Plaque awarded to A. R. Mass and Naugatuck Chemical (N).....Aug. 127

B

Bacteria—Powdered bacteria in packages used in industrial waste plants (N).....Apr. *120
Bagasse see Sugar
Bags—Aureomycin feed weighed and bagged at Pearl River, N. Y. (N).....Sept. *120
Barges carry caustic to New Jersey terminal (N).....Oct. 136
Barite—Baroid goes to oil well drillers (N).....May 141
Batch operation—Nomograph for easy batch cooling calculations. M. F. Seco .....Dec. *173
Bauxite—Reduction plant for bauxite processing features giant pots (N).....Apr. *128

Benzene:

Do you need pure benzene?.....Mar. *288
Extractive distillation gives high benzene recovery (N).....June 147
Benzene hexachloride to be produced by Pennsylvania Salt Mfg. Co. (N).....Nov. 144
Beta-alanine-derived vitamin B complex—market shifts (N).....Jan. *116
Bleaching—New outlook for chlorine dioxide. Schuber & Kraske.....Sept. *205
Blood plasma — Polyvinylpyrrolidone — price cut (N).....Feb. 132
Blowers—Use a mail scale to find blower capacity. T. N. Dalton (P.N.)..Oct. 211
Boilers — Tubular process furnaces. Charles Bliss .....June *208
Bonding agent for metals.....Feb. 229

Book Reviews:

Applied inorganic analysis. W. F. Hillebrand & others.....Dec. 314
Cellulose, the chemical that grows. William Haynes .....Oct. 340
Chemical analysis of industrial solvents. Jacobs & Scheflan.....July 309
Dechema monographs vol. 21...Nov. 311
Economics of natural gas in Texas. Stockton, Henshaw & Graves .....Mar. 364
Electrochemical data. B. E. Conway .....Feb. 340
Elements of food engineering. Parker, Harvey & Stateler .....Aug. 294
Elements of nuclear reactor theory. Glasstone & Edlund.....Dec. 311
Emission spectroscopy and its applications. Pierre Michel.....Oct. 339
Encyclopedia of chemical technology Vol. 9 metal surface treatment to penicillin; ed by Kirk & Othmer .....May 341
Experimental nuclear physics vol. 1. ed by E. Segre.....Nov. 312
The furans. Dunlop & Peters....Sept. 351
Glycerol. ed by Miner & Dalton..Sept. 351
Gmelin's handbook of inorganic chemistry .....Aug. 293
Heat transfer phenomena. R. C. L. Bosworth .....Nov. 309
I remember. D. F. Kimball....June 346
Industrial wastes—their disposal and treatment. ed by Willem Rudolfs .....Sept. 356
An introduction to the chemistry of the hydrides. D. T. Hurd...June 345
Investigation of rates and mechanisms of reactions. ed by Friess & Weissberger .....Oct. 339
Ion exchanges in analytical chemistry. Olof Samuelson.....July 309
Ionic processes in solution. R. W. Gurney .....Aug. 294
Kinetics and mechanism. Frost & Pearson .....Nov. 315
Maleic anhydride derivatives. Flett & Gradner .....Jan. 317
Manual of corporate giving. ed by Beardsley Ruml .....July 309
Memoirs of Herbert Hoover, 1929-1941, the great depression....Feb. 340
Metal data. S. L. Hoyt.....Dec. 312
Metallurgy for engineers. Wulff & others .....Mar. 363
Microwave spectroscopy. Gordy, Smith & Trambarulo .....Nov. 314
Mixtures. E. A. Guggenheim....Jan. 317
Molecular theory of fluids. H. S. Green .....Sept. 354
Non-aqueous solvents (applications as media for chemical reactions) Audrieth & Kleinberg .....June 345
Oils for the paint industry. L. A. Jordan et al.....Nov. 313
Organic chemistry. L. J. Desha..July 312
Organic chemistry, an advanced treatise. ed by H. Gilman....Nov. 310
Organic reactions. ed by R. Adams .....Oct. 342
Oxidation of metals and alloys. Kubaschewski & Hopkins.....Dec. 311
Polarography Vol II 2nd ed. Kolthoff & Lingane .....Mar. 363
Pulp and paper manufacture. ed by J. N. Stephenson.....Oct. 349
Research reports .....Sept. 356
Silicate analysis. A. W. Groves..Mar. 363
Soluble silicates 2nd ed Vol I Chemistry. J. G. Vail.....Feb. 340
Starch. C. A. Brautlecht .....Sept. 351
Styrene: its polymer; copolymers and derivatives. ed by Boundy & Boyer .....Oct. 339
Sulfur-system no. 9 Section A2 of the 8th ed. of Gmelin's Handbook of Inorganic Chemistry .....Dec. 311
Synthetic organic chemistry. Wagner & Zook .....July 313
Techniques of plant maintenance and engineering .....Nov. 309
Textile chemicals and auxiliaries. ed by H. C. Speel.....Jan. 317
Theoretical nuclear physics. Blatt & Weisskopf .....Mar. 363
Leo Ubbelohde. Sein Wirken....Dec. 311
Water supply and sewerage. E. W. Steel .....July 309
Wood chemistry, Wise & Jahn..Aug. 294
Bromine carrier .....June 271
Bubble cap assembly (P).....July 341
Bubble plate (P).....Mar. 337
Business—These men made a success of business for themselves. R. V. Reeves .....July *171
Butyrolactone .....Aug. 335

C

Calcium carbonate .....Aug. 334
Calculations—One way to prevent confusion over force—and mass-pounds. A. L. Wilson (P.N.)..Jan. 204

Canada:

Canada and tariffs.....Mar. 352
Chemicals boom .....Sept. 375
Capsules—Seamless capsules for oil flavors .....Apr. 266
Carbides—Furnaces double capacity of carbide plants (N) .....June 153
Carbon black—High abrasion black to be made by Oklahoma plant (N) .....Aug. 143
New process to make carbon black from cheap waste gas (N)....July *120

Carbon dioxide:

Package plant suggested for producing solid CO_2 (N).....Feb. 140
Safety experts to see how carbon dioxide loosens piles of stored fertilizer (N) .....Sept. 152
Carbon monoxide—acrylics from acetylene and carbon monoxide at Rohm & Haas' new plant (N).....Apr. *114
Casein—Milk prices blamed as casein production ends (N).....Aug. 116
Casters—what you should know about casters for materials handling. R. L. Miller (P.N.).....Aug. *199

Catalysts:

Automatic plants to make catalyst for cracking (N).....June 152
Baker & Co. will produce platinum catalyst .....Sept. 116
Catalytic reformer for Torrance refinery (N) .....Jan. 127
Chloroacetamide .....Feb. 234
Davison catalyst plant at Lake Charles, La. opens (N).....July *110
Fluidized catalyst system for direct oxidation of ethylene oxide (N) .....Feb. *134
Free World catalyst needs to double .....Oct. 357
Hydrogenation catalysts by reduction (P) .....Apr. 285
Latest fluid cat cracker (N)....June *114
New plants and facilities under way 1953—report (table) .....Feb. 176
Oxidizing catalyst bed cuts fuel cost and pollution .....May *264
Polysilicon chlorides produced with new catalytic process (N)....Apr. 144
Sinclair-Baker platinum catalyst to be employed in catalytic reformer erected by Pure Oil Co (N)...Nov. 155
Cathodic protection—can save chemical process equipment. L. P. Sudrabin .....May *196

Caustic soda:

Chlorine without caustic—important processes. Joseph Gordon (charts) .....May 187
New plants and facilities under way 1952—report (table).....Feb. 176
Tanker carries liquid caustic to Cuba (N) .....Mar. 144
Celanese—Pampa, Tex. new organic chemicals plant for Celanese Corp. opens (N) .....Aug. *112
Cellulose polymers .....Oct. 377

Cement:

Foamed cement paste.....Aug. 329
New plants and facilities under way 1952—report (table) .....Feb. 177
New Portland cement process (P) .....May *284
Centrifugals—Liquid entrainment separators report. C. F. Montross (tables) .....Oct. *213-236

Ceramics:

Ceramic caps .....Jan. *228
Ceramics for high temperatures. Alexander Pechman (table)....Nov. *186
Jet engine parts coated with ceramics as conveyor steps up tempo (N) .....Oct. *134

"Chemical Engineering":

Carbide & Carbon Chemicals Co. receives second award for coal hydrogenation process (N)....Sept. *122
Rules and regulations for 1953 award .....Apr. 196
Chemical Engineering Refresher—Compression and expansion. Corrigan & Johnson pt 1.....Dec. *211
Thermodynamics principles. T. E. Corrigan pt 1 Sept. *237 pt 2 Oct. *237 pt 3 Nov. *203

Chemical engineering:

Better off working for a small company—or a big one? R. V. Reeves .....Sept. *196
Carbide & Carbon Chemicals Co. receives award for coal hydrogenation .....Dec. *177
Chemical progress .....Jan. 300
Need for chemical engineers and chemists surveyed (N).....July 110
Progress today . . . and tomorrow (ed) .....Aug. 175
Recall of engineers could hurt defense industries (N).....Aug. 142
Salaries are still climbing according to five surveys.....Nov. 254
What's chemical engineering's outstanding achievement?—rules and regulations for "Chemical Engineering" 1953 award .....Apr. 196

Chemical Engineering Reports:

Entrainment separation. C. F. Montross .....Oct. *213-236
Evaporation. Ernest Lindsey..Apr. *227-240
Fluidized solids. Marshall Sittig .....May *219-231
Heat technology (charts & tables) .....June *175-238
Industrial plastics. Bruner & Wayne .....July *193
Plants and processes (tables) .....Feb. *175-206
Process piping. T. R. Olive..Dec. *187-210
Strain gages. R. W. Nolan..Sept. *217-228
The year for decisions (charts & tables) .....Mar. *188-216

Chemical Engineers:

Abrams, Allen .....July *281
Bretschger, Max E.....June *224
Forster, Albert E.....Sept. *328
Groggins, Philip H.....Jan. *266
Houdry, Eugene J.....Oct. *317
McCabe, Warren L.....Nov. *285
Munson, Charles S.....Aug. *272
Murphree, Eger V.....Apr. *308
Nixson, Anson B.....Sept. *328
O'Donnell, J. P.....July *175
Rand, William .....May *316
Rehels, Daniel H.....July *176
Reynolds, Blythe .....Mar. *308
White, Alfred H. S. D. Kirkpatrick .....Oct. *318
Wilhelm, Richard H.—winner of 1952 Professional Progress Award .....Feb. *284
York, Otto H.....July *176

Chemical Industry

Best opportunities .....Jan. 298
Business outlook is good, but .....Mar. 280
Canada and tariffs.....Mar. 352
Chemical profits are way up for first half (chart) .....Oct. 354
Department of Commerce's program for business .....June *361
Economic conditions (A).....Sept. 374
Expansion boom in Dixie (N)..June 132
Here's what the chemical companies are doing about management development (chart) .....Feb. *252
Koppers expands plants and improves products (N) .....Mar. 146
Looks foreward to 1954-1955 (A)..Dec. 326
New plants are tapering off (charts) .....Mar. 182

NOTES—(A) Abstract; (c) Comment; (ed) Editorial; (E.N.) Equipment, News. * Illustrated; (N) News; (P.N.) Plant Notebook

1952 packaging costs for the chemical industry (table) ....Nov. 322
1953 will be a better year....Jan. 327
Plants and processes—report (table) ....Feb. *175-206
A resurgent Germany looks to chemicals ....Aug. *314
Scarce money may put a crimp in expansion plans (tables)....June 362
The shifting chemical scene in U.S. (map) ....June *357
Short report on the industry. S. D. Kirkpatrick (chart) ....Jan. 294
Supply catches up with demand (charts & table) ....Mar. 188
Theme for Rensselaer Polytechnic Inst.—role of chemical industry (N) ....May 116
Top ten consumers on the chemical hit parade (chart) ....July 326
24th chemical show—list of exhibitors ....Nov. *383
What will Washington decide? ....Mar. *176
The year for decisions—report (charts & tables)....Mar. *188-216
Year of profitless prosperity (charts & tables) ....Mar. 186
Chlorides—proper fabrication of unplasticized polyvinyl chloride equipment. G. S. Laaff ....June *312

Chlorine:

Chlorine without caustic—important processes. Joseph Gordon (charts) ....May 187
Columbia Southern Chemical Corp. increases chlorine caustic capacity at plants (N) ....Sept. 127
Liberating compound (A) ....Sept. 388
New plants and facilities under way 1952—report (table) ....Feb. 176
Selected patents relating to production of chlorine without caustic (table) ....May 193
Shortage over ....Mar. *192
Velsicol Corp. completes Memphis plant (N) ....Dec. 134
Chlorine dioxide—New point-of-consumption process safely produces chlorine dioxide. Schuber & Kraske ....Sept. *205
Chloroacetaldehyde—Dow begins production (N) ....Mar. 113
Chloroacetamide—catalyst in resin-making ....Feb. 234
Chlorobromomethane for fire extinguishers ....Aug. 329
Chloromycetin—New plant for the Philippines (N) ....Oct. 160
Chlorophyll—price cut (N)....Jan. 131
Chromic acid recovered from electroplating rinse water (N)....Aug. 146
Citrazinic acid—for dye intermediates and drugs ....Apr. 263
Clamp—simplifies support of pipe and coils in vessels. Stanley Yokell (P. N.) ....June *246
Classifier uses new theory (P)....Mar. *384

Cleaning:

Decontaminator of radioactivity..Jan. 228
Descaler ....Mar. *262
Good housekeeping for plant engineers ....Mar. 348
Keeping equipment clean....Mar. 346
Motor cleaner ....May 264
Slime preventive ....Oct. 374
"Trench mortar" battery cleans spiral tower packing tiles. A. C. Homme (P. N.) ....Mar. *234
Clothing—Air conditioned safety suit makes tough maintenance easy ....Dec. *144

Coal:

Aromatics from coal flowsheet—coal hydrogenation pilot plant....Dec. *250
Carbide & Carbon Chemicals Co. receives second award for coal hydrogenation process (N)...Sept. *122
Chemical engineering's role in coal hydrogenation. S. D. Kirkpatrick (table) ....Dec. *180
Coal chemicals enter new era (chart & tables) ....Mar. 195
Coal chemicals wanted....Apr. 348
Fuels—choice and handling. J. C. McCabe (charts & tables)....June *186
Gasify cheap coal dust on V-1 bomb principle—Germany (N)....May *144
High boiling phenols for coal hydrogenation ....Apr. 268
Liquid-phase coal hydrogenation . . the Japanese were using it in 1942. Kenzo Shibata ....May *214
New plants and facilities under way 1952—report (table) ....Feb. 177
Past and predicted major uses for principal coal chemicals (table) ....Dec. 183
Ruhrgas process gasifies pulverized coal in cyclone (N)....Feb. 124

Coatings:

Accelerated protective-coating tests. Brian Greenwood (P.N.)....Nov. 199
Dimethyl isophtalate for plastics and protective coatings ....Apr. 264
Directory of coatings manufacturers —addition ....Apr. 302
Drying oils ....Jan. 227
Jet engine parts coated with ceramics as conveyor steps up tempo (N) ....Oct. *134
Lacquer solvents ....Jan. 228
Liquid-plastic coating ....Jan. 228
Metallic coating ....Dec. 333
Neoprene coatings ....July 228
Phosphate coatings ....Jan. 236
Polyvinyl acetate copolymer for textile sizing and coating ....Apr. 270
Porcelain enamel ....Feb. 229
Protective coatings ....Aug. 330
Protective coating for oil tanks ....July 229
Resin-based protective coatings..May 270
Resin coating for wood, metal, plastics, fabrics ....Feb. 232
Rubber-base coating ....June 272
Sodium coating of inert carriers ....June *270
Water-emulsified baking enamel for fabricated metals (A)....Nov. 334
Coatings see also Enamels, Paints

Coke and Coke Products:

Continuous coking process ready for commercial development announced by Standard Oil Development (N) ....Oct. *126
New plants and facilities under way 1952—report (table) ....Feb. 177
New test coke oven (N)....Nov. *142
Ovens added to increase output. Youngstown (N) ....Jan. 147
Combustion — Submerged combustion. W. I. Weisman ....Aug. 152
Theory and practice. W. P. Jensen (charts) ....June *190
Commonwealth-Public Service reports on atomic power potentialities...July *188
Compressed air used to rut out oil tank fire in 37 seconds (N)....Jan. *111
Compression and expansion. Corrigan & Johnson pt 1....Dec. *211
Compressors—High-pressure troubles..Apr. 336
Computation—shot method for interpolating by the Lagrange formula. D. S. Davis (P.N.)....Nov. *198
Concentration—High-vacuum concentration to be used in heavy chemical and pulp processes (N)....June *134

Concrete:

New use for phosphate slag. Scott & Sandberg ....July *182
Precast concrete walls....Sept. *244
Resin coating seals in concrete wall's abrasive dust ....Apr. *264
Substitute called Zeprex....July 239
Surfacing material ....Mar. *261

Condensation:

Boiling liquid coolant prevents condensate freeze-ups. J. I. Lacey (P.N.) ....June *247
Design of cooler condensers for vapor-gas mixtures. G. H. Bras (charts) Pt 1 Apr. 223; Pt 2 May 228
Vacuum condenser is 2 in 1 (P)..Oct. *388

Construction:

Correlation of engineering and other indirect project costs. J. P. O'Donnell (chart & table)....Jan. 188
McGraw-Hill's sixth annual survey of business plans for new plants and equipment—capital expenditure survey (tables)....May 358
New plants are tapering off (charts) ....Mar. 182
Plants and processes—report (table) ....Feb. *175-206
What to do with that old plant? Roger Williams Jr. (charts)..Dec. *185
Where cost estimates go sour. Chaplin Tyler ....Jan. 198
Where do construction dollars go? Kistin, Cameron & Carter (tables) ....Nov. *191
You can hold down costs of construction ....Mar. 336
Contactor, gas-liquid (P)....Aug. 345
Containers—1952 packaging costs for Chemical Product Industries (table) ....Nov. 322

Controls:

Pump control via radio....Mar. *342
Radio used in process control in ferro-chrome alloy plant (P.N.) ....July *186
Sulphur recovery improved by tail-gas analyzer. A. F. Massa (P.N.) ....Feb. *173
Cooling pond may answer your water cooling problem. J. W. Langhaar ....Aug. *194
Cooling towers—Nomograph cuts time for making cooling water calculations. G. E. Mapstone (P.N.)....Oct. *212
Cooper Union surveys salaries of graduates ....Nov. 258
Coronet Phosphate Co. acquired by Smith-Douglass Co. (N)....Nov. 144

Corrosion:

Alkyl phosphites as corrosion inhibitors ....Jan. 227
Cathodic protection can save chemical process equipment. L. P. Sudrabin ....May *196
Corrosion testing for your plant. Mueller & Laehder ....Oct. *193
Corrosion testing service (N)..June 138
Durimet 20—Carpenter 20. W. A. Luce ....Dec. *276
18-8 stainless steels (charts & tables) ....May *300
Glassed steel. Sanford & Britton (charts) ....Mar. *294
Hastelloy alloy F....June *318
High alloy castings conference..Sept. 320
High alloy castings withstand wide variety of corrosive media. E. A. Schoefer (tables) ....Oct. *293
High impact styrene copolymers. Seymour & Steiner (charts)....Jan. *254
How to select your materials. H. W. Van der Hoeven ....Aug. *202
International Nickel Co. holds a form on corrosion ....Sept. *310
Lead equipment—how to resist corrosion. R. C. Thiede....Mar. 344
Lead and lead alloys. K. H. Roll (charts & tables) ....Feb. *264
Low-alloy irons and steels in soils ....Oct. 312
Metallic phosphates make superior corrosion inhibitors ....Apr. 272
Molybdenum stainless steels (charts) ....June *302
Our experience with corrosion. R. C. Thiede ....Mar. 344

Regulator, temperature ..... Nov. 220
Relay, overload ..... June 262
Relay, vibration ..... Dec. 238
Respirator ..... Oct. 262
Rings, hydraulic packing ..... Jan. *222
Rings of Teflon ..... Oct. 254
Roll, belt return—for conveyor .. Apr. *254
Safety lock, door ..... May 243
Saw for concrete ..... Oct. 252
Saw, pipe power ..... Aug. *224
Scale, data deduction ..... Nov. 222
Scale, electronic ..... Mar. *258
Scales, electronic truck ..... Feb. *224
Scales, industrial ..... Dec. 223
Scraper, rotary ..... July 210
Screen, hammer mill ..... May *244
Screen, vibrating ..... Apr. 242
Seal, mechanical shaft ..... June 254
Seal, shaft ..... June *266
Seal, zipper bunker ..... Apr. *256
Sealing device ..... May *252, Nov. *216
Shelter, collapsible ..... Jan. *216
Shovel, tractor mounted ..... Sept. *262
Skid, stacking ..... July 210
Shower, trailer mounted ..... Mar. *265
Skylight, conditions sunlight .... June *252
Soldering fluxes ..... Nov. 216
Spectrometer, mass .. June *256, Dec. 238
Speed drive, variable ..... Aug. *235
Speed recorder ..... July 222
Speed reducer ..... Aug. *226
Spray gun ..... Feb. *218
Sprinkler head ..... Aug. 232
Stacker, lift ..... May 257
Stand, oil drum ..... Aug. *234
Starter, explosion-proof ..... Feb. *216
Static detector ..... Mar. *254
Steam cleaner ..... Mar. *246
Steel, copper clad ..... June 251
Strainer, line ..... Mar. *242
Strainer, liquid ..... July *208
Sulfonation plant, packaged .... May *244
Sweeper, motorized ..... Jan. *222
Switch, automatic ..... June 261
Switch, heavy duty ..... Apr. 254
Switch, limit ..... Sept. 252
Switch, safety ..... Apr. *250
Switch, waterproof ..... Feb. 216
Switch engine pulls cars ..... Sept. *260
Switchgear, low-voltage ..... Aug. *234
Symbols, printed on tape ..... Apr. *250
Tank, aluminum alloy ..... Oct. *256
Tank, large ..... July *208
Tank, lined with Plasticole .... Dec. 224
Tank, plastic—fabricated ..... May *240
Tanks, portable ..... Aug. *210
Tank, stainless steel ..... Jan. 207
Tank, trailer-mounted ..... Sept. 260
Tank liners, plastic ..... May 261
Tanker, plastic ..... Oct. *246
Telemeter circuit ..... Oct. 272
Tester, voltage ..... Jan. *222
Thrower, centrifugal ..... July 210
Tower, work ..... Aug. *227
Tractor, rubber-tired ..... Mar. *259
Trailer, hand truck ..... May 257
Trailer, hopper-car ..... Feb. *210
Transducer, pressure. Mar. 253, June 258
Transformer, enclosed ..... Feb. 216
Transmitter, pneumatic ..... Dec. 238
Transmitter, pneumatic gage .. June *260
Transmitter, pressure ..... Feb. *226
Transmitter, temperature ..... Jan. 212
Tray, fibrous glass ..... Dec. *222
Truck, fire ..... Mar. *255
Truck, fork ..... Jan. 218, *219, Feb. 210
Truck, fork lift ..... July *210
Truck, fork—muffler ..... Nov. *218
Truck, lift ..... Mar. 256
Trucks, lift and fork ..... Apr. 256
Truck, pallet ..... Jan. *218
Trucks, standup fork ..... Jan. 216
Truck, tiering ..... Jan. 219
Truck unloader ..... Mar. *256
Tube fittings ..... Aug. *230
Tube and pipe fittings ..... Aug. *234
Tubing, seamless ..... Mar. 244
Turbidimeter, recording ..... Dec. *241
Turbine, gas ..... July *206
Unloader, box car ..... Sept. *260
Unloading platform swings over tank cars ..... Aug. 210
Vacuum cleaner, industrial ..... July *214
Valve, automatic control ..... Aug. *232
Valve, automatic shutoff ..... Oct. 266
Valve, bleeder ..... Nov. 234
Valve, blind ..... Oct. *256
Valve, butterfly ..... May 253, Sept. *269
Valve, control ..... Feb. *214

NOTES—(A) Abstract; (c) Comment; (ed) Editorial; (E.N.) Equipment, News. * Illustrated; (N) News; (P.N.) Plant Notebook

Valve, cycling control.....Apr. 259
Valve, diaphragm .....Aug. 238
Valve, gate seal.....Dec. *228
Valves, German .....Nov. 237
Valves, globe, of polyethylene..Sept. *266
Valve, hydraulic relief.....Mar. 242
Valve, motor .....Jan. *108
Valve, pipeline .....Nov. *238
Valve, plug .....Jan. *207, Dec. 228
Valve, plug, operator.....Sept. 270
Valve, pneumatic control.....Dec. 230
Valve, Polyethylene .....July 208
Valve, porcelain .....Mar. 244
Valve, quick opening.....June 254
Valve, relief .....May *250
Valves, safety relief.....Nov. *237
Valve, self-tightening .....Aug. 222
Valve, solenoid.....Jan. 207, Mar. *244
Valve, steam .....Dec. 246
Valve, swing check.....Sept. *266
Valve, throttling .....July *208
Valve, toggle .....Jan. 206
Valve, venturi with ball disk....Mar. *244
Valve actuator .....Oct. *258
Valve overcomes closing trouble..Oct. 258
Vat fermenters .....Apr. 243
Vibration isolator .....Sept. 246
Vibration measurer .....Feb. *222
Viscosimeter .....Oct. 268
Viscosity instrument .....Mar. *248
Washing tower, fume .....Sept. *271
Water softener, giant.....Dec. *220
Water sterilizer, ultraviolet.....Dec. *220
Welding flux for aluminum.....Oct. 252
Welding rod .....June *262
White liquor clarifier .....Oct. 245
Ethylbenzene Plant at Port Arthur, Tex. opens (N) .....July *112

Ethylene:
Allied Chemical to have new Texas ethylene plant (N).....Apr. 146
Analysis of ethylene processing..Mar. 341
Derivatives to be made by Allied Chemical (N) .....Jan. 144
Flowsheet for ethylene .....Mar. *272
Polymerized with alcohols to oils and waxes (N).....Apr. 148
Ethylene dibromide—new Dow plant in Texas (N) .....Jan. 110
Ethylene oxide—fluidized catalyst system for direct oxidation (N).....Feb. *134
Lummus to license Shell's process (N) .....May 154
European Federation for Chemical Engineering Chemical engineers set up federation (N).....Sept. 150

Evaporation:
Evaporation—report Ernest Lindsey. Apr. 227-240
How Hanford evaporates fission wastes. C. E. Hirsch.....Nov. *184
Unit for recovery of waste sulphite liquor has flexibility and heat economy (N) .....Mar. *140
Expansion and compression. Corrigan & Johnson pt 1.....Dec. *211
Explosives—Atomic Energy Commission Spoon River Plant will process explosives (N).....Apr. 125
What is selling continuous nitration? (N) .....Mar. *130
Exposition—34th chemical show—list of exhibitors .....Nov. *233

Extraction:
Continuous solvent extraction process uses peanut meal as base for new fiber (N).....June *144
Cottonseed oil—better solvent extraction (N) .....May *124
Double solvent extraction yields aromatics (P) .....July *342
Helical plate tower for extraction (P) June *372
Liquid-liquid extractor has unusual plate construction (P) .....Jan. *335
Lukenweld designs packaged solvent extraction plant (N).....Apr. 147
Platreater operated with a Platformer and a Udex solvent extractor increases aromatic recovery (N) .....Sept. *172
Simple hookup solves problem in liquid—liquid extraction. J. D. Ross (P.N.) .....Apr. *213
Soybean meal improved with new extraction process (N) .....Jan. 128
Tower for use in Udex process (P) Nov. *346
What every engineer should know about packed tower operations. F. A. Zenz.....Aug. *176

F

Feed supplement .....July 230

Feeders:
Floating weir box provides constant feed rate. W. H. Decker (P.N.) July *186
New feeder for loose solids (P)..Apr. *274
Ogorzaly novel solids feeding system (P) .....Jan. *332
Fermentation—Bacitracin flowsheet June *282-285
Ferrochrome—Pacific Northwest Alloys producing near Spokane (N)..Dec. 152

Fertilizers:
Eastern States Farmers' Exchange converts mixing plant to granular fertilizers .....Dec. *116
Farmers need heavy loans to pay for fertilizers (N) .....May 136
French and Germans team up to make nortophosphate fertilizers (N) .....Aug. *115
Mixed fertilizer plant to be constructed by Davison (N).....Mar. 129
N-P-K head for dizzy peaks (tables) Mar. *202
New fertilizer has high nitrogen content .....Dec. *324
New plants and facilities under way 1952—report (table).....Feb. 178
New processes and technology 1951-52 —report (table) .....Feb. 194
Nitric acidulation used in new plant (N) .....Jan. 144
Nitrogen solution .....Oct. 370
Nitrophosphate fertilizer flowsheet Aug. *116
Safety experts to see how carbon dioxide loosens piles of stored fertilizer (N) .....Sept. 152
Triple superphosphate fertilizer from Simplot (N) .....June 129
Water-soluble fertilizer .....May 272
Fiberboard, resin-bonded, turned out as an endless sheet (N).....Aug. *130

Fibers:
Finish for synthetic fibers.....June 276
Glass-fiber-filled phenolic molding compound .....Apr. 263
Man-made fibers keep climbing..Mar. *205
More chemicals for textiles.....Feb. *359
New plants and facilities under way 1952—report (table).....Feb. 187
New processes and technology 1951-52 —report (table) .....Feb. 193
Peanut meal as base for Ardil, a wool-like synthetic fiber (N)..June *144

Filtration:
Anthracite as a filter aid.....Oct. 372
Device serves as both a mechanical and electrical filter (P).....Sept. *294
Dynel filter cloth's caustic resistance cuts costs .....Feb. *230
Filter of plastic .....Aug. *328
Progress in air filtration (N)..July *124

Finance:
An engineer's view of the dollar. Sydney Steele (charts).....Feb. 157
An investor looks at growth companies (A) .....July 330
Capital expenditure survey—no depression before '56 — tables (McGraw-Hill sixth annual survey) May 358
How to estimate costs in a hurry. H. E. Wessel (tables).....Jan. *168
Investments . . . oil or chemicals? May 372
1953 will be a better year.....Jan. 327
Scarce money may put a crimp in expansion plans (tables).....June 362
What to do with that old plant? Roger Williams Jr. (charts)..Dec. *185
What will Washington decide?..Mar. *176
Why Monsanto makes a profit..Feb. 316
Year of profitless prosperity (charts & tables) .....Mar. 186

Fire protection:
Compressed air used by Socony-Vacuum to put out oil fire in 37 seconds (N) .....Jan. *111
Fire truck smothers refinery fires by chemical (N) .....Aug. *146
Flame proofer for cottons (A)..Sept. 382
Flame retardant .....Oct. *376
Flame retardant silicone rubber (A) Nov 334
Flowmeters—Flowmeter measures true mass flow (N).....Mar. *124
Versatile flow meter measures flow in two directions. Shulman, Stiegler & Leist (P.N.) .....Feb. *178

Flowsheets:
Aromatics from coal.....Dec. *250
Anhydrous sodium sulfate.....Aug. *242
Bacitracin flowsheet .....June *282-285
Elon — mono-methyl-p-aminophenol sulphate .....Oct. *276
Ethylene .....Mar. *272
Hi-purity liquid sulphur dioxide from roaster gases .....Apr. *278
Maleic anhydride .....July *228
Nitrophosphate fertilizer flowsheet Aug. *116
Photographic sensitizing .....May *274
Semi-chemical pulping .....Nov. *244
Sodium ferrocyanide .....Feb. *240
Sulphur dioxide by fluidization..Jan. *328
Thermal spectrum of heat technology June 177-184
Wood chips into medium-density plywood core material .....Sept. *276
Fluids—Fluidized solids. Marshall Sittig (report) .....May *219-231

Fluorides:
Device records changes in atmospheric fluorides (N) .....June 148
New production method for calcium fluoride and silica—charts (P) June 376
Potassium titanium fluoride....Mar. 262

Fluorine—Du Pont expands output of fluorinated products (N).....Oct. 158
New process will make fluorinated organic (N) .....July 142
Fluorocarbon plastics .....May 264
Fluorspar—new production method for calcium fluoride and silica—charts (P) .....June 376
Formaldehyde—Solid formaldehyde..Aug. 332
Solid formaldehyde made as water-free polymer (N) .....July 126
Fractionation tower tilted (P).....Dec. *347
Freight rates—if you ship process products, S. P. Smith (charts)....Mar. 222
Nomograph shows freight costs for equipment. J. R. LaPointe (P.N.) Apr. 213
Frit—plants flourish on frit.....Feb. *228

Fuel:
Combustion theory and practice. W. P. Jensen (charts) .....June *190
Evaporation of liquid fuel holds key to better jets (N) .....Feb. 116
Fuel additive .....Feb. 234
Fuel oil additive prevents screen and filter clogging .....Apr. 264
Fuels—choice and handling. J. C. McCabe (charts & tables)....June *186
Gasify cheap coal dust on V-1 bomb principle—Germany (N) .....May *144
Liquid-phase coal hydrogenation . . . the Japanese were using it in 1942. Kenzo Shibata .....May *214
Oxidizing catalyst bed cuts fuel cost and pollution .....May *264
Supersonic speeds reached with rocket fuel in tests (N).....May 155
Thermofor pyrolytic cracking process for producing high Btu. fuel gas (N) .....Nov. *122

Fungicides:
Emulgates (A) .....Sept. 381
Fights wood rotting and decay..Feb. 230
Preservatives that protect against fungal attack .....Oct. 369
Trichlorobenzenes used in fungicides Apr. 263
Furfurylamine .....Mar. 268

Furnaces:
Preheat increases heating rate in a processing furnace. T. H. Elmer (P.N.) .....Jan. *203
TVA's rotating phosphorous furnace celebrates its second birthday. Striplin, Megar & Potts (tables) Sept. *201
Tubular process furnaces. Charles Bliss .....June *208

G

Gages—Strain gages—report. R. W. Nolan Sept. *217 228
Gallium—market still scarce—"use wanted" sign still out.....Apr. 262
Gamma globulin—Temperature control in key steps of blood fractionation (N) Nov. *117

Gas:
Design of cooler condensers for vapor-gas mixtures. G. H. Bras (charts)....pt 1 Apr. 223, pt 2 May 228
Flow factor—a new tool.....Sept. *170
Fluidized solids. Marshall Sittig (report) .....May *219-231
Fuels—choice and handling. J. C. McCabe (charts & tables)....June *186
Helium source found in Oklahoma (N) .....May 147
Hi-purity liquid SO_2 from roaster gases (flowsheet) .....Apr. *278
Horizontal agitated vessel for gas—solid contacting (P) .....May *281
Hyperflow—gas lift for solids (N) May *138
Liquid level control in gas absorbers (P) .....May 379
Multi-stage sweep diffusion (P)..May 379
New plants and facilities under way 1952—report (table) .....Feb. 180
Nomograph gives enthalpies of paraffin hydrocarbon gases. D. S. Davis (P.N.) .....Aug. *201
Purifying synthesis gas made from coal (N) .....Feb. 138
Ruhrgas process gasifies pulverized coal in cyclone (N).....Feb. 124
Russian process for treating flue gas to get sulphuric acid.....Mar. 251
Thermofor pyrolytic cracking process for producing high Btu. fuel gas (N) .....Nov. *122
Unusual approach to heating gases (P) .....Sept. 294
V-1 bomb cues coal gasifier design—Germany (N) .....May *144
Vortex tube splits flow of gas into two streams, one hot, one cold..Dec. *149
What every engineer should know about packed tower operations. F. A. Fenz .....Aug. *176

Gasoline:
Antioxidant for gasoline.....May 262
Cat reformer will double output of aviation gas (N) .....Feb. 125
Conoco increases output of natural gasoline (N) .....Oct. 154

Government urges need for alkylation facilities to cover aviation gasoline (N) ..... Oct. 150
New Mexico plant to make gasoline and butanes (N) ..... Oct. 144
Standard Oil Co. of Calif. to boost octane rating of gasoline (N) .. Oct. 136
Texas Co. adding reformer at Port Arthur refinery (N) ..... Aug. 142
Gelling agent ..... Oct. 369
Generators—Gas engines make cheap power for two aluminum plants (N) ..... July *118
Germanium—Radioactive method used in purifying germanium (N) .... Sept. 132
Germany—A resurgent Germany looks to chemicals ..... Aug. *314
Germicides—Product and a process applied to paper ..... Aug. 330

Glass:
Engineers to improve design of glass furnaces (N) ..... Sept. 142
Glass-fiber-filled phenolic molding compound ..... Apr. 263
Glassed steel. Sanford & Britton (charts) ..... Mar. *294
New plants and facilities under way 1952—report (table) ..... Feb. 177
Perchloric acid handled by glass tubes without gaskets (N) .... Oct. *130
These ideas will increase life of your glass-lined vessels. P. P. Jones (P.N.) ..... Jan. *201
Glyceryl amines—production (P) (chart) Mar. 390

Glycols:
Carbide & Carboa trims price (N) Dec. 127
Ethylene glycol outlook ..... June 363
From olefins to glycols through oxidation (P) ..... Nov. 358
Unsaturated glycol ..... June 271
Grinding—High-speed ball mill (P) .. July *338
Groggins, Philip H. of U. S. Dept. of Agriculture ..... Jan. *266
Gypsum—Stronger gypsum plaster (P) (charts & tables) ..... Apr. 330

H

Hastelloy alloy F ..... June *218
Health—Save your health for your peak earning years ..... July *346

Heat:
Curves cut work in determining electric energy for heating. Joseph Gialanella (P.N.) ..... May *234
Electric heating methods. C. H. Chilton ..... June *195
Heat technology report (charts & tables) ..... June *175-238
High temperature service. Braca & Merims (charts & tables) ..... Feb. *165
Oil circulation heating system built for pilot plant. P. N. Cheremisinoff (P.N.) ..... Nov. *197
Preheat increases heating rate in a processing furnace. T. H. Elmer (P.N.) ..... Jan. *203
Refractories for every use. C. L. Norton Jr. (charts & tables) .. June *216
Thermal spectrum of heat technology flowsheet ..... June 177-184
Tubular process furnaces. Charles Bliss ..... June *208
Variable-temperature heating system avoids use of moving parts. J. I. Lacey (1952 PN award) ..... Jan. *202

Heat exchangers:
Heat exchanger costs today. F. L. Rubin (charts & tables) pt 1 May 201 pt 2 July *177, pt 3 Sept. *229, pt 4 Oct. *196
Heat exchanger trends. J. C. Smith June *232
Latest pebble heater design (P) Apr. *377
Shortcut to heat exchanger design. C. H. Gilmour (charts & tables) pt 2 Mar. 226, pt 3 Apr. 214, pt. 4 Oct. *202
Simplified method for sizing gas heat exchangers. A. Devors (P.N.) .. July 187
Transferring heat. N. Y. C. sewage plant ..... Apr. 352
Heat pumps—Drying by the heat pump principle (P) ..... Apr. 374

Heat transfer:
Advances in heat transfer. C. F. Bonilla (charts) ..... June *228
Boiling liquid coolant prevents condensate freeze-ups. J. I. Lacey (P.N.) ..... June *247
Evaporation—report. Ernest Lindsey Apr. *227-240
Heat transfer coefficients for heating or cooling in tubes. Y. S. Tang (chart) (P.N.) ..... Dec. 174
How solid deposits affect heat transfer. J. A. Taylor ..... Aug. *192
Media for heat transport. J. J. Carberry (charts) ..... June *225
Methyl phenyl ether ..... May 263
Helicopter moves management fast .. June *297
Helix—chart saves time in determining length of a helix. L. Shprintz (P.N.) ..... May 233

Herbicides:
Bright prospects for herbicide .. Jan. *226
Improved MCP herbicide ..... Mar. 262
Nonselective killer for weedy fire hazards ..... Mar. 260
Pentachlorophenol for herbicide formulations ..... Jan. 226
Hopper design. C. A. Lee ..... May *194
What makes a good vibrator set-up? Frederick Marich (charts) .... Apr. *204
Hydraulics—Nomograph gives liquid volume within a slanting tube. Jack Lower (P.N.) ..... Apr. 211
Process piping report. T. R. Olive Dec. *187-210
Hydrazine commercial plant output soars (N) ..... Sept. 117
New use (P) ..... Dec. 352

Hydrocarbons:
Double solvent extraction yields aromatics (P) ..... July *342
Extraction of hydrocarbons from oxygenated materials (P) .... June *378
Nomograph gives enthalpies of paraffin hydrocarbon gases. D. S. Davis (P.N.) ..... Aug. *201
Hydrogasification ..... Apr. 342
Hydrogen—Hydrogenation catalysts by reduction (P) ..... Apr. 385
Laboratory makes liquid hydrogen for use in research on low temperature problems (N) ..... Nov. *134
Hydrogen chloride—Alkyl chlorides from waste HCl (P) ..... Oct. *392
Hydrogen fluoride boiler has shield of acrylic. P. C. Ziemke (P.N.) .. Oct. *211
Hydrogen peroxide—plasticizers from hydrogen peroxide process (N) May 134
Hydroxylation: new unit process (N) Aug. *118
Hyperflow—new solids lifting technique (N) ..... May *138

I

Incentive management (A) ..... Oct. 290
Illinois Institute of Technology—Surveys engineers salaries ..... Nov. 257
Indexes—Marshall and Stevens annual indexes of comparative equipment costs 1913-1952 ..... Mar. 220
Marshall & Stevens indexes of comparative equipment costs .... Jan. 207 Feb. 209, Mar. 392, Apr. 243, May 243 June 251, July 207, Aug. 211, Sept. 245 Oct. 245, Nov. 213, Dec. 219
Industrial Research Institute—1953 medal to Eger V. Murphree ..... Apr. *308
Inorganics—All time monthly high set for seven inorganics ..... Aug. 323
New processes and technology 1951-52—report (table) ..... Feb. 195

Insecticides:
Allethrin production rises ..... Jan. *234
Control of houseflies ..... May 268
DDT aerial war to save Canadian fir trees ..... Mar. 116
Insecticide base (A) ..... Sept. 386
Lindane spray ..... Jan. 232
Toxaphene blending grows fast (N) Jan. *132

Instruments:
Device records changes in atmospheric fluorides (N) ..... June 148
Reduction potential instrument shows low air concentration in steam. Frederick Pahnos (P.N.) ..... May *232
Thermostats measure liquid level (P.N.) ..... Apr. *212

Insulation:
Insulation for heat and cold—thermal insulation. Ray Thomas (tables) June *221
Plastic insulation ..... June *272
Popcorn-like vermiculite insulates molten metal ..... Feb. *230
Resin kettle will defy northern winters (N) ..... Jan. *114
Underground insulator gives permanent protection to hot pipes. Dec. *334
Vermiculite insulation. Morton Sherman ..... Sept. 176
International Nickel Co. holds a forum on corrosion ..... Sept. *310
Inventory—How inventory costs affect your process economics. H. E. Schweyer ..... Oct. *188

Iron:
Electrolytic process produces pure malleable iron from waste pyrrhotite. Erich Konrad (tables) .. Apr. *189
Ferroalloys—new producer (N) .. Feb. *116
Iron reduction in fluid beds (P) Sept. *398
Isocyanates plant expansion by Monsanto (N) ..... July 144
Isotopes—Reactor at Houston, Tex., refinery inspected by radioactive isotopes (N) ..... Sept. 138
Itaconic acid—transparent plastic made from itaconic acid esters (N) .. Apr. 150

J

Japan—Glidden to help Japanese produce titanium dioxide (N) .... Mar. 138
Jet engines—Liquid fuel evaporation holds clue to better jets (N) .. Feb. 116
What's ahead for jet engines and rocket motors in process units? Stewart & Kreith ..... Sept. *208

K

Ketones:
Fatty acid ketones ..... Mar. 266
Process to prepare methyl vinyl ketone (P) ..... Apr. 386
Unsymmetrical ketones ..... Aug. 338

L

Labor:
Annual wage—some cautions (A) Oct. 294
Attracting graduates ..... June 294
Benefits and employee relations .. May 293
British takes notes on what makes U. S. terrific (chart) ..... May 355
Changing jobs (A) ..... Dec. 368
Don't discount experience (ed) .. Apr. 209
Good employee relations (A) .... Nov. 361
Industry chalks up new records—nobody's taking shortage lying down ..... Mar. *184
Is your company spending enough for personnel management (chart) Nov. 352
Labor in 1955 ..... June 299
Older workers—new facts ..... Aug. 357
Overtime pay. J. M. Rosow (A) .. Dec. 370
Save your health for your peak years July *346
Transfers—trend is up (A) ..... Oct. 292
Wages—advanced degrees . . . do they pay? ..... May 294
What will Washington decide? .. Mar. *176
Law—how good a technical witness are you? C. M. Hudspeth ..... Apr. *281

Lead:
Lead and lead alloys. K. H. Roll (charts & tables) ..... Feb. *264
Lead equipment—how to resist corrosion. R. C. Thiede ..... Mar. 344
Outlook for lead—will it really be short? (A) ..... July 328
Letters—cost of one letter ..... May 296
Lignin—from pollution to profit with use of lignin effluent at Marathon (N) ..... Apr. *122
Lime—Lime forges upward—now twice prewar (chart) ..... Mar. 213
Liners, vinyl film ..... Aug. *330

Liquids:
Centrifugal liquid—liquid contacting plate (P) ..... May 379
Entrainment separation report. C. F. Montross ..... Oct. *213-236
Liquid level measurement by electrical capacitance (P) ..... Apr. 374
Liquid—liquid extractor has unusual plate construction (P) ..... Jan. *235
Liquid—liquid system—most efficient stirrer (chart) ..... Jan. 212
Liquid-phase coal hydrogenation .... The Japanese were using it in 1942. Kenzo Shibata ..... May *214
Rotating cylinder gives liquid gas contacting (P) ..... Feb. 368
Thermostats measure liquid level. J. D. Ross (P.N.) ..... Apr. *212
Your guide to mixer costs. G. E. Lewis (charts & tables) ..... Jan. 191
Lithium carbonate—American Potash converts idle bromide plant to lithium carbonate production (N) Sept. *144
Lorite—extender pigment output doubled (N) ..... Mar. 128

Lubrication:
Extra lubrication saves catalyst pump (P.N.) ..... May 234
How to insure correct lubrication ((P.N.) ..... June 246
Lithium base grease gives ultra-high resistance ..... June 274
Low-temperature lubricants .... June 278
Plastilube—chemical compound said to outperform grease ..... Apr. 262
Sulfated ester used as lubricant in wet processing ..... June 276
Where to use synthetic greases (table) ..... Feb. 307

M

Maintenance:
Dry ice aids weld repairs, stops HF leakage. P. C. Ziemke (P.N.) .. Jan. 203
How to rig bubble caps for easier replacement. R. P. Loewen (P.N.) Feb. *172
Materials-handling tricks. W. G. Hudson ..... June *244

NOTES—(A) Abstract; (c) Comment; (ed) Editorial; (E.N.) Equipment, News. * Illustrated; (N) News; (P.N.) Plant Notebook

Schedule your maintenance for minimum cost. R. L. Ahlness (charts & tables) ..... May 236
Maleic anhydride flowsheet ..... July *228

Management:

Annual wage—some cautions (A) ..... Oct. 284
Building people (A) ..... Sept. 299
Catalyzing executives on the way up ..... Sept. *284
Here's what the chemical companies are doing about management development (chart) ..... Feb. *252
How American Management Assn. trains executives ..... Dec. *253
How to write poor letters ..... Jan. 246
In 1953 management is thinking about ..... Mar. *280
Incentive management (A) ..... Oct. 280
Is your company spending enough for personnel management (chart) ..... Nov. 252
Transfers—trend is up (A) ..... Oct. 292
Why all the fuss about executive development? ..... Feb. *248
Manganese—Electro Metallurgical Co. to produce electrolytic manganese (N) ..... Sept. 134
Manhole cover hook. C. W. Stevens ..... Oct. *211
Manufacturing—No depression before '56—capital expenditure survey (McGraw-Hill sixth annual survey) (tables) ..... May 358
Manufacturing Chemists' Assn. meeting (N) ..... Aug. 138
Marketing . . . to top management ..... June 295
Marshall & Stevens indexes of comparative equipment costs—annual indexes 1913-1952 ..... Mar. 220
Marshall & Stevens indexes of comparative equipment costs ..... Jan. 207, Feb. 209, Mar. 292, Apr. 243, May 248, June 251, July 207, Aug. 211, Sept. 246, Oct. 245, Nov. 213, Dec. 219

Materials:

Economic study shows the relationship between industry producing and industry purchasing (table) ..... Nov. *130
Scarce materials (A) ..... Sept. 320
What will Washington decide? ..... Mar. *176

Materials Handling:

Chemical safety charts issued by U. S. Dept. of Labor Standards ..... Oct. *148
Fork truck-trailer team-up (N) ..... June *118
Fuels—choice and handling. J. C. McCabe (charts & tables) ..... June *186
Latest sodium handling techniques. Gill, Debacher & Sittig ..... Mar. *217
Materials-handling tricks. W. G. Hudson ..... June *244
No dust, no waste, no heavy labor with tote systems (N) ..... June *140
Oil tank moved by floating it over a home-made waterway (N) ..... Aug. *140
Quick lift for heavy parts (P.N.) ..... May *235
What you should know about casters for materials handling. R. L. Miller (P.N.) ..... Aug. *199

Materials of Construction:

Corrosion of low-alloy irons and steels in soil ..... Oct. 312
Corrosion testing for your plant. Mueller & Lashder ..... Oct. *193
Dechema Tables of Constructional Materials to be published for the third time ..... July 272
Durimet 20—Carpenter 20. W. A. Luce ..... Dec. *276
18-8 stainless steels (charts) ..... May *300
Fused quarts. Joseph Gialanella ..... Apr. *302
Glass tubes without gaskets handle perchloric acid (N) ..... Oct. *136
Glassed steel Sanford & Britton (charts) ..... Mar. *294
Hastelloy alloy F ..... June *318
High alloy castings withstand wide variety of corrosive media. E. A. Schoefer (tables) ..... Oct. *298
High impact styrene copolymers. Seymour & Steiner (charts) ..... Jan. *254
How to evaluate economy of construction materials. P. E. Krystow (table) (P. N.) ..... Jan. 204
How to select your materials. H. W. Van der Hoeven ..... Aug. *202
Industrial plastics report. Bruner & Wayne ..... July *192
Lead and lead alloys. K. H. Roll (charts & tables) ..... Feb. *264
Molybdenum stainless steels (charts) ..... June *302
Practical corrosion control. F. L. LaQue ..... Apr. *232
Selecting materials for high temperature service. Braca & Merima (charts & tables) ..... Feb. *165
Sensitive corrosion measurements ..... Oct. 314
17% chromium stainless steel (charts & tables) ..... Aug. *260
Stainless steel (tables) ..... Apr. *290
These ideas will increase life of your glass-lined vessels. P. P. Jones (P. N.) ..... Jan. *201
12% chromium stainless steel (charts & tables) ..... July *262
Unplasticized polyvinyl chloride—proper fabrication. G. S. Laaff ..... June *312
Worthite's corrosion resistance. W. E. Pratt (chart) ..... Nov. *264
Zirconium as a material of construction. J. D. Roach (tables) ..... Sept. *304
McGraw, Curtis W. president of McGraw-Hill dies ..... Nov. *286
McGraw, Donald C. elected president of McGraw-Hill (N) ..... Nov. *129
Mercury piston gives close control of liquid feed rates. Stein & Schoeneweis (P.N.) ..... Aug. *200

Metals:

Alloy pigs from hogged fuel—new electric smelting technique (N) ..... June *122
Bonding agent ..... Feb. 239
Fine metal powders (P) ..... Jan. 340
Metal-plastic laminate ..... Dec. *340
Metals for extreme temperatures. M. M. Hoover (charts) ..... June *212
New plants and facilities underway 1952 report (table) ..... Feb. 179
New processes and technology 1951-52 report (table) ..... Feb. 197
Selecting materials for high temperature service. Braca & Merima (charts & tables) ..... Feb. *165
Why the upsurge in metals? ..... Mar. *211

Meters—How to meter accurately when liquids contain bubbles. Leonard Steber (P.N.) ..... Oct. *210

Methane—Chlorinated methane products to be made near Moundsville, W. Va. (N) ..... Aug. 122

Methanol—How to separate methanol from methyl acetate (P) ..... Aug. 348
Methionine—Du Pont to make synthetic methionine (N) ..... Mar. 123
Methyl glucoside—for paints and varnishes ..... Mar. 260
Methyl phenyl ether—industrial solvent and heat transfer medium ..... May 263
Methyl toluenesulfonate ..... June 271
Methyl toluene sulfonate—produced by Monsanto in commercial quantities (N) ..... May 137
Methyl vinyl pyridine—Phillips Chemical produces from petroleum (N) ..... Feb. *112
Mills—New high-speed ball mill (P) ..... July *358

Mixing:

Chart helps find blend composition for three components. J. T. Hogan (P.N.) ..... Feb. 174
Eastern States Farmers' Exchange converts mixing plant to granular fertilizers ..... Dec. *116
Mixing with disk impellers (P) ..... May *380
More on blending of three or more components five new aspects—E. U. Condon about the pivot point. G. W. Upington ..... June *247
New solvent process means better reactant dispersion (N) ..... July 142
Quick method gives specific gravities of mixtures. R. S. Cook (P.N.) ..... Mar. 233
Why not use draft tubes? A. P. Weber ..... Oct. *183
Your guide to mixer costs. G. E. Lewis (charts & tables) ..... Jan. 191
Mold release ..... Aug. 335, Dec. 342
Molding powder plant expands (N) ..... Sept. 172
Monosodium glutamate—made from molasses residue (N) ..... June 147
Monsanto-Union Electric reports on atomic power potentialities ..... July *188
Motion picture film with synthetic base (A) ..... Sept. 382

Motors:

Standards revised by National Electrical Mfrs. Assn. ..... Oct. *250
Tomorrow's motors—forecast ..... Apr. 340
What's ahead for jet engines and rocket motors in process units? Stewart & Kreith ..... Sept. *208

N

National Assn. of Corrosion Engineers Two sections added ..... Sept. 312
National Chemical Exposition—List of exhibitors ..... Nov. 353
National Society of Professional Engineers—Survey of salaries ..... Nov. 254

Natural Gas:

New plants and facilities underway 1952 report (table) ..... Feb. 181
New processes and technology 1951-52 report (table) ..... Feb. 201
New process to make carbon black from cheap waste gas (N) ..... July *120
Sulfur from Wyoming gas to make acid for fertilizer (N) ..... July 131
Texas plant gets sulfur from casinghead gas (N) ..... Sept. 161

Nickel:

Ferronickel to be made by M. A. Hanna Co. for D.M.P.A. by Ugine process (N) ..... Apr. 114
New unit for sponge nickel (N) ..... Mar. *114
Silicone-treated nickel ..... May 263

Nitration—what is selling continuous nitration? (N) ..... Mar. *130

Nitric Acid:

Commercial Solvents Corp. nitric acid plants to make solid ammonium nitrate by the new one-step Stengel process (N) ..... Nov. *150
Phillips Chemical steps up output (N) ..... May 114

Nitrogen washing for the production of ammonia synthesis gas (N) ..... July *133

Noise effects efficiency ..... Aug. 256

Nomographs:

Charts simplify calculation of horizontal tank volume. Jack Lowenstein (P.I.) ..... Nov. *197
Cooling tower calculations. G. E. Mapstone (P.N.) ..... Oct. *212
Easy batch cooling calculations. M. F. Seco ..... Dec. *172
Enthalpies of paraffin hydrocarbon gases. D. S. Davis (P.N.) ..... Aug. *201
Freight costs for equipment shown by nomograph. J. R. LaPointe (P.N.) ..... Apr. 213
Nomograph gives liquid volume within a slanting tube. Jack Lowe (P.N.) ..... Apr. 211
Nomograph gives vapor pressures of saturated salt solutions. J. T. Hogan (P.N.) ..... Mar. 232
Settling rates for spherical particles. Mahewart & Baird (P.N.) ..... Dec. *176
Simplify your cost estimates. Lynn & McKlveen (charts) ..... Apr. 193
Thickener clarification capacity solved by nomographic chart. Machwart & Dupuis (P.N.) ..... Nov. *198
Water content of sulfur plant gas stream. S. Schwarts (P.N.) ..... July *185

O

Odor control—Continuous oil deodorizer uses concurrent flow (P) ..... Apr. *376
Semi-continuous deodorizer flexible way to remove odors (N) ..... Mar. *120
Office of Defense Mobilization—Program drawing to a close (A) ..... Dec. 325

Oil and Fats:

Contin[illegible]s oil deodorizer uses concurren[illegible] flow (P) ..... Apr. *376
Cottonseed oil—better solvent extraction (N) ..... May *124
Drying oil (A) ..... Sept. 384
Drying oil for protective coatings and alkyd resins ..... Jan. 227
Ethylene polymerized with alcohols to oils and waxes (N) ..... Apr. 148
Fatty alcohol from tallow (N) ..... Mar. *118
Gelling agent ..... Oct. 369
Improved process for winterized vegetable oil (P) ..... Oct. 396
Lukenweld designs packaged solvent extraction plant (N) ..... Apr. 147
Method to remove caustic droplets from oil (P) ..... Nov. 358
More fats and oils—rise in margarine production (charts & tables) ..... Mar. 209
New processes and technology 1951-52 report (table) ..... Feb. 193
New solvent lubricating oil plant at Cushing, Okla. refinery (N) ..... Oct. 156
New ways to retort oil shale (P) ..... June *374
Packaged extraction plant (N) ..... Sept. *162
Refining glyceride oils (P) ..... Sept. 400
Seed oil refining process (P) ..... Nov. 356
Semi-continuous deodorizer flexible way to remove odors (N) ..... Mar. *120
Shock waves expel [illegible] fat (N) ..... Feb. *118
Synthetic hydro[illegible]t produced to be used [illegible] plasticizers (N) ..... Aug. *118
U. S. Bureau [illegible] Mines [illegible] ucing better oil fr[illegible] shale (N) ..... July *114
"Wet steam upgrades [illegible]sh oil (N) ..... May *122
Winterizing [illegible]etable oils (P) ..... Apr. 335

Organics—New [illegible]nts and facilities underway 1[illegible] report (table) ..... Feb. 188
New processe[illegible] and technology 1951-52 report [illegible]ble) ..... Feb. 198

Oxidation—Fluidized catalyst system for direct oxidation of ethylene oxide (N) ..... Feb. *134

Liquid-phase oxidation process (P) ..... Mar. 391

Oxygen:

Allied completes oxygen unit at chlorine plant (N) ..... Sept. 134
Liquid oxygen generator travels by air (N) ..... Apr. *128

O-Xylene—New Method of recovering (P) ..... Dec. 346

P

Pacific Gas-Bechtel reports on atomic power potentialities ..... Aug. 189

Packaging:

Chemical packaging ..... Jan. 209
1952 packaging costs for Chemical Product Industries (table) ..... Nov. 322
Quaternary ammonium compounds in metal ..... Dec. 324

Watch those hidden packaging costs. Uncles & Carter ....Aug. *185
Packed towers—What every engineer should know about packed tower operations. F. A. Zenz....Aug. *176
Packings—new packing material for liquid-gas contacting (P) ....Feb. *370

Paints:
Acrylic dispersion for emulsion paint vehicles ....June 271
Bright future seen for masonry paints (A) ....Nov. 326
Corrosion resistant. R. C. Thiede Mar. 344
Dispersing agent ....July 229, 232
Dispersing pigments by supersonic vibrations (P) ....Sept. 400
Lorite—extender pigment output doubled (N) ....Mar. 128
Powdered asphalt paint....June 278
Rubber based paints....Mar. 262
Sales up—banner year in '53 (chart) Mar. 216
Silicone cement paint ....May *266
Sodium ferrocyanide—flowsheet..Feb. *240
Para-cresol—synthetic process getting set for competition (N) ....Jan. *127
Particles—Nomographic gives settling rates for spherical particles. Machwart & Baird (P.N.)....Dec. *176

Patents:
Checklist of new equipment and process patents..Jan. 342, Feb. 376, Mar. 392, Apr. 390, May 386, June 380, July 344, Aug. 350, Sept. 402 Oct. 398, Nov. 358, Dec. 354
How to get a patent....June *290
Pro: how to get a patent. R. E. Schneider ....Sept. 177
Selected patents relating to production of chlorine without caustic (table) ....May 193
Penicillin type O (A)....Nov. 333
Pentachlorophenol ....Jan. 226
Pentaerythritol now made by Canadian producer (N) ....Nov. 162
Perchloric acid—Production of the acid by the metathesis of cell liquor with hydrochloric acid—handled by glass tubes without gaskets (N) Oct. *130
Perchloroethylene unit added by Dow (N) ....Mar. 118
Personnel management spending (chart) Nov. 252
Pesticides—Agricultural chemicals—uses broadened (chart) ....Mar. 199
New plants and facilities underway 1952 report (table) ....Feb. 181

Petroleum:
Acetylene joins petrochemicals..Mar. *206
Amarillo, Tex. refinery adds orthoflow cat cracker (N)....July 140
Automatic plants to make catalyst for cracking (N) ....June 152
Bay Petroleum Co. adds catalytic cracker at Denver (N)....Nov. 162
Cat reformer will double output of aviation gas (N) ....Feb. 125
Catalytic polymerization unit at Premier Oil refinery (N)....Aug. 122
Catalytic reformer for Torrance refinery (N) ....Jan. 127
Crude distillation unit added by Esso (N) ....Apr. 115
Crude from Rockies piped to refineries in Illinois (N)....Feb. 116
El Paso refinery gets new houdriflow cracker (N)....Apr. 152
Esso Standard Oil building catalytic cracking plant (N)....Dec. *130
Ethylene—flowsheet ....Mar. *272
Ethylene from petroleum—analysis of processing ....Mar. 341
Extraction tower for use in Udex process (F) ....Nov. *346
Houdriflow cat cracker for Germany (N) ....Nov. *126
Hydrogasification ....Apr. 342
Hyperforming process for solids transport (N) ....May *138
Isopropyl alcohol and acetone to be made in Canada by Shell Oil (N) July 131
Latest fluid cat cracker (N)....May *114
Motor oil ....Feb. *229
New plants and facilities underway 1952 report (table) ....Feb. 181
New processes and technology 1951-52 report (table) ....Feb. 201
New Shell process rids feedstocks of sulfur (N) ....July 130
Oil expansion still soaring (table) Mar. *207
Petroleum outlook ....Feb. 314
Pipeline will carry products from refinery to Spokane (N)....Jan. 116
Products of Utah refinery to be piped into Northwest (N)....Mar. 137
Pyridine plant makes methyl vinyl pyridine from petroleum (N)..Feb. *112
Semet-Solvay enters new field of petrochemicals (N) ....Mar. 148
Sinclair-Baker platinum catalyst to be employed in catalytic reformer erected by Pure Oil Co. (N)....Nov. 155
Sinclair Refining Co. at Marcus Hook, Pa. to increase production of petrochemicals (N) ....July 130
Soviet oil production exceeds one million barrels per day....Oct. 358
Thermofor pyrolytic cracking process for producing high Btu. fuel gas (N) ....Nov. *122
Union Oil of Calif. to build platformer (N) ....Dec. 148
What every engineer should know about packed tower operations. F. A. Zenz ....Aug. *176

Phenol:
First phenol from cumene in Montreal plant (N)....Aug. *114
High boiling phenols from coal hydrogenation ....Apr. 268
Manufacture of phenols (P)....June 377
Outlook for phenol....June 363

Phosphates:
Chemical phosphates look ahead (chart) ....Mar. 196
Metallic phosphates make superior corrosion inhibitors ....Apr. 272
New use for phosphate slag. Scott & Sanberg ....July *182
Phosphate coatings ....Jan. 236
Phosphites—Alkyl phosphites—field expanding (N) ....Feb. *126

Phosphorous:
Chemical phosphates look ahead (chart) ....Mar. 196
New furnace for Monsanto in Idaho (N) ....Oct. 142
New plants and facilities underway 1952 report (table) ....Feb. 178
Shea Chemical Corp. constructs new plant at Columbia, Tenn. (N)..Oct. *116
TVA's rotating phosphorus furnace celebrates its second birthday. Striplin, Megar & Potts (tables) Sept. *201
Victor expands production of phosphorus oxychloride (N)....Dec. 132
Photocopying—photographic sensitizing flowsheet ....May *274-277
Photographic chemicals—elon flowsheet Oct. *276
Photographic chemicals still booming Sept. *370
Phthalic anhydride being produced in new Barrett plant at Chicago (N) Oct. 142

Pigments see Paints
Pinic acid produced from alpha pinene (N) ....July 142

Pipes:
Clamp simplifies support of pipe and coils in vessels. Stanley Yokell (P.N.) ....June *246
Cost data bring economic pipe sizing up to date. Braca & Happel (charts & tables) ....Jan. 180
Crude from Rockies moves to refineries in Illinois (N)....Feb. 116
How to make a reliable pressure tap for polyethylene pipe. J. M. Madigan (P.N.) ....Dec. 176
How to specify iron water pipe. H. F. Rase ....June *242
How to use system-head curves in pump selection. Melvin Mann (charts) ....Feb. 162
Paper diaphragm starts siphon for corrosive liquids. Renzo Volterra (P.N.) ....Apr. *210
Pipelines and valves—how to resist corrosion. R. C. Thiede....Mar. 344
Process piping report. T. R. Olive Dec. *187-210
Products of Utah refinery to be piped into Northwest (N)....Mar. 137
Rubber by pipeline—new faster continuous process (N)....Mar. *112
Simple orifice construction based on pipe union. Jack Lowenstein (P.N.) ....May *233
Teflon dispersion makes dope for pressure-tight pipe joints. Thompson & Nielsen (P.N.)....Nov. 196
Plant construction see Construction

Plant Notebook:
Acrylic shield protects users of hydrogen fluoride boiler. P. C. Ziemke Oct. *211
Boiling liquid coolant prevents condensate freeze-ups. J. I. Lacey June *247
Build better design into your rectangular tanks. I. A. Butcher Aug. *201
Chart helps find blend composition for three components. J. T. Hogan Feb. 174
Chart saves time in determining length of a helix. L. Shprintz May 233
Charts simplify calculation of horizontal tank volume. Jack Lowenstein ....Nov. *197
Clamp simplifies support of pipe and coils in vessels. Stanley Yokell June *246
Control chart tests effect of industrial safety programs. W. C. Soudriette Apr. 212
Curves can simplify your problems in estimating cooling tanks. R. S. Cook ....July *184
Curved cut work in determining electric energy for heating. Joseph Gialanella ....May *234
Dry ice aids weld repairs, stops HF leakage. P. C. Ziemke (P.N.) Jan. 203
Extra lubrication saves catalyst pump ....May 234
First-aid devices protect alkali-metal workers. P. C. Ziemke....Apr. *210
Floating weir box provides constant feed rate. W. H. Decker....July *186
Freight costs for equipment shown by nomograph. J. R. LaPointe...Apr. 213
Heat transfer coefficients for heating or cooling in tubes. Y. S. Tang (chart) ....Dec. 174
Here's help in sizing orifices for controlling steam flow. Edward Gibbons (chart) ....Mar. 224
Hints for better cuts in large glass tubing. V. S. Cupta....Aug. 200
"Hose chute" reduces dusting..May *233
How an inner tube can serve as a scale for weighing in field. D. H. Gieskieng ....Nov. *196
How to evaluate economy of construction materials. P. E. Krystow (table) ....Jan. 204
How to insure correct lubrication June 246
How to make a reliable pressure tap for polyethylene pipe. J. M. Madigan ....Dec. 176
How to meter accurately when liquids contain bubbles. Leonard Steber ....Oct. *210
How to rig bubble caps for easier replacement. R. P. Loewen....Feb. *172
How to service your hydraulic acetylene flash arrestors. P. M. Ziemke Sept. *235
How vacuum dryers were converted for three-way operations. Frank Gibadlo ....May *235
Improvement in method of checking softening points. E. J. Erwood Sept. *236
Manhole cover hook. C. W. Stevens Oct. *211
Mercury piston gives close control of liquid feed rates. Stein & Schoenewels ....Aug. *200
More on blending of three or more components five new aspects—E. U. Condon about the pivot point—G. W. Upington....June *247
Nomograph cuts time for making cooling tower calculations. G. E. Mapstone ....Oct. 212
Nomograph gives enthalpies of paraffin hydrocarbon gases. D. S. Davis ....Aug. *201
Nomograph gives liquid volume within a slanting tube. Jack Lowe ....Apr. 211
Nomograph gives vapor pressures of saturated salt solution. J. T. Hogan ....Mar. 238
Nomograph gives water content of sulfur plant gas stream. S. Schwartz ....July *135
Nomographic gives settling rates for spherical particles. Machwart & Baird ....Dec. *176
Oil circulation heating system easily built for pilot plant. P. N. Cheremisinoff ....Nov. *197
One way to prevent confusion over force—and mass-pounds. A. L. Wilson ....Jan. 204
Paper diaphragm starts siphon for corrosive liquids. Renzo Volterra Apr. *210
Preheat increases heating rate in a processing furnace. T. H. Elmer Jan. *203
Pump trouble? maybe thermal expansion is causing misalignment. R. P. Loewen....Dec. *174
Quick lift for heavy parts....May *235
Quick method gives specific gravities of mixtures. R. S. Cook....Mar. 233
Radio used in process control in ferro-chrome alloy plant....July *186
Rapid method for moisture content estimation in plant products. H. F. Reichard ....Feb. 172
Reduction potential instrument shows low air concentration in steam. Frederick Fahnoe ....May *232
Sheet plastic aids in estimating areas of irregular shapes. C. E. Ballard Sept. 234
Short method for interplating by the Lagrange formula. D. S. Dale Nov. *198
Simple hookup solves problem in liquid-liquid extraction. J. D. Ross Apr. *213
Simple orifice construction based on pipe union. Jack Lowenstein..May *233
Simple way to make accelerated protective-coating tests. Brian Greenwood ....Nov. 199
Simplified method for sizing gas heat exchangers. A. Devore....July 187
Sulphur recovery improved by tail-gas analyzer. A. P. Massa...Feb. *173
Teflon dispersion makes dope for pressure-tight pipe joints. Thompson & Nielsen....Nov. 196
Thermostats measure liquid level Apr. *212
These ideas will increase life of your glass-lined vessels. P. P. Jones Jan. *201

NOTES—(A) Abstract; (c) Comment; (ed) Editorial; (E.N.) Equipment, News. * Illustrated; (N) News; (P.N.) Plant Notebook

Thickener clarification capacity solved by nomographic chart. Machwart & Dupuis....Nov. *198
"Trench mortar" battery cleans spiral tower packing tiles. A. C. Homme....Mar. *234
Unconventional all-plastic valve solves corrosion problems. O. M. Hahn....Sept. *234
Use a mail scale to find blower capacity. T. N. Dalton....Oct. 211
Using plug valves to produce motion inside autoclaves. A. W. Billitzer....Mar. *232
Variable-temperature heating system avoids use of moving parts. J. I. Lacey (winner of 1952 PN award)....Jan. *202
Versatile flow meter measures flow in two directions. Shulman, Stieger & Leist (P.N.)....Feb. *173
Wedges cut from I-beams make good wedge washers. A. J. Fritsche....July *187
What you should know about casters for materials handling. R. L. Miller....Aug. *199

Plants—plants and processes—report (tables)....Feb. *175-206

Plaster—Stronger gypsum plaster (P) (charts & tables)....Apr. 380

Plasticizers:

Hydrogen peroxide process makes plasticizers from fats and vegetable oils (N)....May 134
Plasticizer imparts low-temperature flexibility to films and sheetings....Mar. 261
Synthetic hydroxlated fat produced to be used as primary plasticizers (N)....Aug. *118
Vinyl plasticizer....July 229

Plastics:

All-plastic valve solves corrosion problems. O. M. Hahn (P.N.)....Sept. *234
Antiglare plastic (F)....Nov. *326
Celanese Corp. pilot plant will explore polyester (N)....Dec. 150
Copolymer of rubber and polystyrene molds with ease....Oct. 368
Dimethyl isophthalate for plastics....Apr. 264
Engineers greatest challenge mechanical....Jan. 301
Fluorocarbon plastics....May 264
High impact styrene copolymers. Seymour & Steiner (charts)....Jan. *254
Industrial plastics report. Bruner & Wayne....July *193
Instruction on plastic materials of construction to be given by Atlas Mineral Products Co....June 320
Koppers Co. to produce plastics at Kobuta, Pa. (N)....Nov. 158
Liquid-plastic coatings....Jan. 228
Metal-plastic laminate....Dec. *349
Molding method (P)....Feb. 374
Monsanto now producing plastics in Ohio plant (N)....Jan. 110
Naugatuck adding capacity for plastic molding powder (N)....Sept. 172
New plants and facilities underway 1952-report (tables)....Feb. 184
New processes and technology 1951-52-report (table)....Feb. 202
Plastics foresee no let-up (chart)....Mar. 204
Plastic insulation....June *372
Plastics on the move (tables)....Apr. *370
Proper fabrication of unplasticized PVC equipment. G. S. Laaff....June *212
Three new plastics....Oct. 372
Transparent plastics made from itaconic acid esters (N)....Apr. 150
Vinyl plastic manufacture without dust (N)....June *124

Plywood—Hardboard process uses resin binder (N)....Jan. *138

Wood chips into medium density plywood core material—flowsheet....Sept. *276

Pneumatic tubes dispatch test samples in Upjohn Co.'s plant (N)....Oct. *124

Pollution control—Odd pollution problem....Feb. 326

Polyhydroxyamine....Feb. 330

Polyethylene:

How to make a reliable pressure tap for polyethylene pipe. J. M. Madigan (P.N.)....Dec. 176
Polyethylene derivative imparts ozone resistance to rubber (N)....Apr. 132
Production doubled but not enough to meet needs (N)....Apr. 151
Spencer Chemical new plant (N)....May 142

Polyethylene terephthalate (A)....Sept. 382

To be produced by Du Pont (N)....Sept. 131

Polymerization—"Wet steam" upgrades fish oil (N)....May *122

Polystyrene—High impact styrene copolymers. Seymour & Steiner (charts)....Jan. *254

Polystyrenes—uses....Jan. 300

Polyvinylpyrrolidone—price cut (N)....Feb 132

Potassium sulfate—more production at Carlsbad (N)....Apr. 148

Power:

Gas engines make cheap power for two aluminum plants (N)....July *118
How to plan power distribution. W. B. Wilson (charts)....Apr. 199
Should your plant produce power? W. B. Wilson (charts)....Mar. *235

Power plants—Fast estimate for power plant costs. Fernside & Cheney (tables)....June *239

Precipitators see Dust and fume handling

Presidents Materials Policy Commission. Six tasks for industry....Mar. 336

Press converts wood waste into resin-bonded fiberboard (N)....Aug. *130

Production—British take notes on what makes US terrific (chart)....May 355

Production control—taking headaches out of aspirin production (N)....June *116

Profits—Operate for maximum profit. K. M. Mayer....Sept. *214

Propellants—manufactured by Southern Calif. (N)....Feb. 130

Public relations—Benefits and employee relations....May 293

Publications—An ominous trend among scientific journals (ed)....Apr. 209

Pulp and paper:

Alaskan mill to burn waste from magnesia pulping (N)....Jan. 114
From pollution to profit with use of lignin effluent (N)....Apr. *122
Low-foaming paper size (A)....Nov. 338
New plants and facilities underway 1952-report (table)....Feb. 185
New processes and technology 1951-52-report (table)....Feb. 202
Newsprint from hardwood made by pressure method (N)....May 155
Newsprint to be made in Lockport, La. bagasse plant (N)....July *136
New York and Pennsylvania Co. completing pilot plant to convert hardwood into pulp (N)....Dec. 146
Photographic sensitizing flowsheet....May *274-277
Production slumps and recovers (chart)....Mar. 194
St. Regis Paper Co. operating new kraft mill in Florida (N)....Apr. 136
St. Regis Paper to expand at Pensacola, Fla.....Dec. 142
Semi-chemical pulping flowsheet....Nov. *244
Sulfate pulp mill being built in Texas (N)....Apr. 150
Unit for recovery of waste sulphite liquor has flexibility and heat economy (N)....Mar. *140
Yeast made as byproduct of sulfite pulping (N)....Oct. 150

Pumps:

Cut impeller erosion—easily. T. W. Edwards (charts)....Dec. *170
Extra lubrication saves catalyst pump (P.N.)....May 234
How to move and meter liquid sodium. E. R. Cornell....Sept. *212
How to pick a vacuum system for your job. L. W. Hull....Nov. *200
How to use system-head curves in pump selection. Melvin Mann (charts)....Feb. 162
Liquid level control in gas absorbers (P)....May 379
New handling methods of eliminating vapor locking (P)....Dec. *348
Proposal for a pump standard....Mar. 335
Pump control via radio....Mar. *342
Pump trouble? maybe thermal expansion is causing misalignment. R. P. Loewen (P.N.)....Dec. *174
Pumping liquids....Mar. 358
Watch your pump safety factors. H. F. Rase....Oct. *208
What's ahead for jet engines and rocket motors in process units? Stewart & Kreith....Sept. *208

Purchasing and producing in industry 1947 (table)....Nov. *130

Purification—generators purify gases for synthesis of ammonia (N)....June 139

Pyridine—Methyl vinyl pyridine from petroleum (N)....Feb. *112

Produced by U. S. Steel (N)....Nov. 162

Pyrites—Sulphuric acid by fluidized-bed roasting of pyrites (P)....Apr. *388

Pyrrhotite—electrolytic process produces pure malleable iron from waste pyrrhotite. Erich Knorad (tables)....Apr. *189

2-Pyrrolidone....Oct. 377

Q

Quality control—Next time, use statistics. Ferencz & Lloyd (charts)....Apr. 219

Quartz—fused quartz. Joseph Gialanella....Apr. *302

R

Radioactivity—Decontaminator of radioactivity....Jan. 228

How Hanford evaporates fission wastes. G. E. Hirsch....Nov. *184

Rare earth chemicals—increase in use (table) (N)....Jan. 130

Rayon—Philippines to convert bagasse into rayon (N)....July 135

Tire cords, textiles and reinforcing plastics....Dec. *336
Rayon tire cord (A)....Sept. 390

Reading speed—increase it....July 258

Reduction—Rotating screen acts like ball mill, crushing rolls (P)....Feb. *372

Refining seed oil refining process (P)....Nov. *366

Refractories:

Ceramics for high temperatures. Alexander Pechman (table)....Nov. *186
Refractories—for every use. C. L. Norton Jr. (charts & tables)....June *216
Silica brick by pushbutton control (N)....Oct. *120
Silicon carbide brick....Aug. *328

Refresher course—Compression and expansion. Corrigan & Johnson pt 1....Dec. *211

Thermodynamics principles. T. E. Corrigan pt 1 Sept. *237, pt 2 Oct. *237, pt 3 Nov. *203

Refrigeration—Desiccant—removing water and acid from refrigeration systems....Dec. 333

Refrigeration—Refrigeration and refrigerants. C. L. Rescorla (charts & tables)....June *200

Rensselaer Polytechnic Institute

Role of chemical industry theme for session (N)....May 116

Reports—Don't write reports....Jan. 303

Research:

Catalytic process yields polysilicon chlorides (N)....Apr. 144
How can we achieve a national science policy? (ed)....Apr. 208
How not to be "just another researcher" T. F. Cathey....May *282
How's industrial research —(table) (N)....Apr. 116
International's Researchers push South's use of timber (N)....Jan. 147
Math and intuition solve industrial research problems....Feb. 324
Operations research....Feb. 324
Peak expenditures for drug research....Mar. *380
Sea water purification experts to help government in research (N)....Jan. 118
Statistical analysis cuts pilot-plant time....Feb. 322
Statistics can help in solving process problems. Ferencz & Lloyd....May 207
Ultracentrifugal analysis and separation offered to researchers (N)....Oct. 124
Where it'll do the most good—company promotion of research (ed)....Apr. 209

Resin:

Alkyd coating resin....Dec. 338
Casting process opens market for urea resins (N)....Sept. 132
Clear new petroleum resin....Mar. *260
Coating for wood, metal, plastic, fabrics....Feb. 232
Epoxy resins are good for oil and chemical pipes and tanks (A)....Sept. *380
Epoxy resin demands triple epichlorohydrin output....May *262
Foamed silicone resins....Dec. 333
Heat-stable vinyls (A)....Nov. 341
Kettle for resin production will defy northern winters (N)....Jan. *114
Melamine resin increases wet strength of paper (A)....Sept. 382
Meta-phenols....Oct. 370
New plants and facilities underway 1952-report (table)....Feb. 184
New process for making furfuryl alcohol resin intermediates....Apr. *344
Polyamide resins....Oct. 370
Reichhold Chemicals makes water-soluble resin (N)....Nov. *116
Reichhold resins will be made by Norwegian partner (N)....Sept. 137
Resin coating seals in concrete wall's abrasive dust....Apr. *264
Resin concentrate....Oct. 374
Resin dispersion....Apr. 270
Sand treating resin....Apr. 263
Sheet milled from new resin....Apr. *266
Silicone coatings....Aug. 330
Silicone resin to bond glass laminates....Apr. 329
Solid polyester resin now being produced by Atlas (N)....Jan. 110
Styrene copolymers (A)....Nov. *344
Thermosetting resin....Jan. 227

Reynolds, Blythe....Mar. *308

Ring designed to prevent channeling through a packed column (P)....Nov. 354

Roofing granules production increased by Minnesota Mining & Mfg. (N)....Dec. 135

Rotameter, variable-range (P)....Apr. 378

Rubber:

Appraising of rubber plants points to disposal (N)....Jan. 110
Butadiene from alcohol (N)....Mar. 136
Butadiene—how Dow recovers butadiene (N)....Mar. *116
Canada develops improved compounding process (N)....Sept. 132
Copolymer line reopened by Reconstruction Finance Corp. at Institute plant (N)....Apr. 126

Copolymer of rubber and polystyrene molds with ease ....Oct. 368
Degussa process uses silicone rubber Dec. *122
Dow Corning increases capacity with new plant for silicone rubber (N) July *116
Flame retardant silicone rubber (A) Nov. 334
Goodyear expanding its chemical output (N) ....July 114
Goodyear starts $1.5 million synthetic rubber expansion (N)..Jan. 110
Hard rubber ....June 274
New plants and facilities under way 1952-report (table) ....Feb. 186
New processes and technology 1951-52 52-report (table) ....Feb. 204
Pipeline reactor for faster continuous process (N) ....Mar. *112
Polyethylene derivative imparts ozone resistance to rubber (N) Apr. 132
Powdered rubber good for blends with asphalt, plastics, cork (A) Nov. 332
Reconstruction Finance Corp. purchases alcohol for butadiene plants (N) ....Apr. 134
Rubber-base coating ....June 272
Rubber-based paints ....Mar. 262
Rubber film ....Oct. 368
Rubber fortifier ....Mar. 261
Silicone dioxide for rubber industry compounders ....June 272
Silicone rubber ....Apr. 263
Sulfoxylate derivative as a rubber activator (A) ....Sept. 382
Tires will outwear autos with new rubber substitute ....Apr. *262
Vinyl pyridine latex ....Jan. 232
Rum—pilot plant for rum research (N). Aug. *124

S

Safety:
Acrylic shield protects users of hydrogen fluoride boiler. P. C. Ziemke (P.N.) ....Oct. *211
Air conditioned safety suit makes tough maintenance easy....Dec. *144
Chemical safety charts issued by U. S. Dept. of Labor Standards Oct. *146
Compressed air used by Socony-Vacuum to put out oil fire in 37 seconds (N) ....Jan. *111
Control chart tests effect of industrial safety program—chart. W. C. Soudriette (P.N.) ....Apr. 212
Diatomaceous earth plant at Lompoc, Calif. spends millions for cleanliness (N) ....Oct. *148
First-aid devices protect alkali-metal workers. P. C. Ziemke (P.N.) Apr. *210
Job is safer than home for workers at Du Pont (N) ....May 122
Lammot du Pont Safety Plaque awarded to A. R. Maas and Naugatuck Chemical (N) ....Aug. 127
Latest sodium handling techniques. Gill, Debacher & Sittig ....Mar. *217
Safety is your business. Joseph Guelich ....May *211
Stopping accidents ....Jan. 303
Synthetic rubber plants sets new industry safety record (N)....Oct. 140
Watch your pump safety factors. H. F. Rase ....Oct. *203
What is selling continuous nitration? (N) ....Mar. *130

Salt:
Dixie Chemical plans sea salt production (N) ....Nov. 128
Salt as extractive solvent (P)..Jan. 340
Jan. 340
Wetting action improvement claimed by waternary ammonium salts Apr. 272

Saran—Dow teams with Japanese to produce (N) ....Dec. 132
Scale remover ....Aug. 335
Scales—How an inner tube can serve as a scale for weighing in field. D. H. Gieskieng (P.N.) ....Nov. *196
Scrubbers—Operating and performance (Entrainment separation) (tables) Oct. 224
Sealing—Heat sealing compound....Apr. 272

Separation:
Entrainment separation report. C. F. Montross (tables) ....Oct. *213-226
Ethylbenzenes from xylene fractions (P) ....June 378
Fractional fusion process (P)..July 340
Heavy-media separation upgrades dolomite (N) ....May *114
Impingement separators (tables) Oct. *221
Separate your solid solutions (P) Feb. *368
Separation through nonporous membrane (P) ....Feb. 376
Shock waves expel cold fat (N)..Feb. *118
Vapor separation—new technique (P) Dec. *344
Silica—New production method for calcium fluoride and silica—charts (P) June 376
Degussa process uses silicone rubber Dec. *122
Silica brick by pushbutton control (N) Oct. *120
Silica gel—removes aromatics (P)..Feb. *374
Silicon carbide rollers (N)....Sept. 116
Silicon chlorides—Catalytic process yields polysilicon chlorides (N)....Apr. 144
Silicone dioxide—for rubber industry compounders ....June 272

Silicones:
Dow Corning increases capacity with new plant for silicone rubber (N) July *116
Flame retardant silicone rubber (A) Nov. 334
Foamed silicone resins....Dec. 333
GE expands plant (N)....June *150
Glass laminates bonded with silicone resin ....Aug. 329
Resins containing silicones....Aug. 330
Silicone cement paint....May *266
Silicone varnish ....June 271
Sizing agent ....July 232
Slurry contacting tower (P)....July *338
Small company or a big one—survey on the advantages and disadvantages of working there. R. V. Reeves ....Sept. *197
Smoke generator for the Army (N) Nov. *120
Soap—Shift from soap to detergents (chart) ....Mar. 198

Soda Ash:
Intermountain's new plant (N)..Mar. 112
Mathieson Chemical making soda ash for glass (N)....Dec. 152
New plants and facilities under way 1952-report (table) ....Feb. 176
Supply is and will be ample (table) Mar. 193
Trona yields soda ash by new process (N) ....May *118

Sodium:
Coating inert carriers with sodium June *270
How to move and meter liquid sodium. E. R. Conrell ....Sept. *212
Latest sodium handling techniques. Gill, Debacher & Sittig ....Mar. *217
Sodium chlorate—new plant for Oldbury (N) ....Jan. 142
Sodium epoxystearate ....Oct. 375
Sodium ferrocyanide—flowsheet....Feb. *240
Sodium polyacrylate—output increased (N) ....Jan. 146
Sodium polyphosphates useful in oil well drilling muds and detergents..Dec. 334
Sodium silicates—Dow to make silicate by new Cowles process (N)...Mar. 134
Sodium sulfate—Anhydrous sodium sulfate flowsheet ....Aug. *242
Softening points checked. E. J. Erwood (P.N.) ....Sept. *235

Soil Conditioners:
Ferric ammonium complex—fiotal, aims at large-acreage use....May *264
Plants flourish on frit....Feb. *228
Rebuilding the soil (A)....Sept. 386
Seed disinfectant ....Jan. 235
Soil conditioner ....July 230
Soil conditioner puzzle....Feb. 312

Solids:
Feeder for loose solids (P)....Apr. *374
Fluidized solids. Marshall Sittig (report) ....May *219-231
Horizontal agitated vessel for gas-solid contacting (P)....May *281
Ogorzaly solids feeding system (P) Jan. *332
Your guide to mixer costs. G. E. Lewis (charts & tables)....Jan. 191

Solvents:
Dimethylformamide ....May 263
High boiling solvents....July 230
Lacquer solvents for coatings..Jan. 228
New solvent process means better reactant dispersion (N)....July 142
Oil from cottonseed—better solvent extraction (N) ....May *124
Pressure-treating wood cuts costs of solvent recovery (N) ....May *150
Salt as extractive solvent (P)..Jan. 340
Self-emulsifying solvent removes gasoline traces and fumes from tanks Mar. 266
Solvents dip for a shake-down (chart) ....Mar. 200
Three odorless solvents....Mar. 261
Sonic frequency—shock waves expel cold fat (N) ....Feb. *118
Soybeans—extraction process improves soybean meal (N) ....Jan. 128
Spectrum—thermal spectrum of heat technology flowsheet ....June 177-184
Standards—Proposal for pump standard Mar. 355
Standards are helpful....Feb. 315
Starch—Electrolytic oxidation process from Germany (N) ....Oct. *118

Statistics:
Next time, use statistics. Ferencz & Lloyd (charts) ....Apr. 219
Statistics can help in solving process problems. Ferencz & Lloyd..May 207
Statistics on the move in the process industries—American Soc. for Quality Control ....Dec. *118

Steam:
Ejectors show low first cost. J. C. Tallman (charts & tables)....Jan. 176
Here's help in sizing orifices for controlling steam flow. Edward Gibbons (P.N.) (chart) ....Mar. 234
Reduction potential instrument shows low air concentration in steam. Frederick Fahnoe (P.N.)....May *232
"Wet steam" upgrades fish oil (N) May *122

Steel:
Corrosion of low-alloy irons and steels in soils....Oct. 312
18-8 stainless steels (charts & tables) May *300
Electro Metallurgical Co. to make ferrochrome to go into low-carbon stainless steels (N)....Sept. 134
Glassed steel. Sanford & Britton (charts) ....Mar. *294
High alloy castings withstand wide variety of corrosive media. E. A. Schoefer (tables) ....Oct. *298
Molybdenum stainless steels (charts) June *302
New chromium manganese steels Sept. 314
New stainless steel....July 274
Selecting materials for high temperature service. Braca & Merims (charts & tables) ....Feb. *165
17% chromium stainless—corrosion resistance (charts & tables)..Aug. *260
Stainless steel (tables)....Apr. *290
Surface preparation recommendations Sept. 312
12% chromium stainless steels (charts & tables) ....July *262
Type 443 stainless available....July 274
Storage—Design of hoppers for use. C. A. Lee ....May *194
Sublimation—alternate hot and cold zones give fractional sublimation (P) ....June 370
Sugar—Newsprint to be made in Lockport, La., bagasse plant (N)..July *136
Philippines to convert bagasse into rayon (N) ....July 135

Sulphur:
Claus process makes sulphur recovery pay (N) ....Feb. *133
Frasch sulphur plant to be built in Mexico (N) ....Jan. *128
Hi-purity liquid sulphur dioxide from roaster gases (flowsheet) ....Apr. *278
Insoluble sulphur plant to be built at Monongahela, Pa. ....Dec. 116
New plants and facilities under way 1952-report (table) ....Feb. 186
Nomograph gives water content of sulfur plant gas stream. S. Schwartz (P.N.) ....July *185
Recovering sulphur from waste refinery gases by Shell Chemical (N) Jan. 114
Sulphur crisis over—enough again (tables) ....Mar. 130
Sulphur from sour gases (N)....Mar. 150
Sulfur from Wyoming gas to make acid for fertilizer (N)....July 131
Sulphur recovery improved by tail-gas analyzer. A. P. Massa (P.N.) Feb. *173
Texas plant gets sulfur from casing-head gas (N) ....Sept. 161
12 ways to save on sulfur. Seymour Schwartz ....Nov. *208
Westvaco to get sulfur from hydrogen sulfide (N) ....Sept. 127
Sulphur dioxide—by fluidization—flowsheet ....Jan. *228

Sulphuric Acid:
Fluidized-bed roasting of pyrites (P) Apr. *358
Plant helps combat air pollution (N) Jan. 128
Russian process for treating flue gas to get sulphuric acid....Mar. 351
Sulphur crisis over—enough again (tables) ....Mar. 130
Sulphur dioxide by fluidization—flowsheet ....Jan. *228
Superphosphates—First private continuous triple superphosphate plant in Idaho, U. S. (N)....Sept. *174
Supersonic vibration used to disperse pigments (P) ....Sept. 400
Surfacing material for concrete....Mar. *261

T

Tag lines and valves permanently. C. K. Cooper (P.N.) ....Aug. 201

Tanks:
Build better design into your rectangular tanks. I. A. Butcher (P.N.) ....Aug. *201
Charts simplify calculation of horizontal tank volume. Jack Lowenstein (P.N.) ....Nov. *197
Curves can simplify your problem in estimating cooling tanks. R. S. Cook (P.N.) ....July *184
Dow cleans its own tank cars (N) Apr. *118
Latest sodium handling techniques. Gill, Debacher & Sittig ....Mar. *217

NOTES—(A) Abstract; (c) Comment; (ed) Editorial; (E.N.) Equipment, News. * Illustrated; (N) News; (P.N.) Plant Notebook

Oil tank moved by floating it over a homemade waterway (N)..Aug. *140
Tar—Aromatics from thermal-cracked wood tar .....Mar. 338
Technical editor . . . a new industry phenomenon. Walter & Mills..Aug. *250

Technology:
Heat technology report (charts & tables) .....June *175-233
Plants and processes—report (tables) .....Feb. *175-206
Six tasks for industry.....Mar. 225
Technical outlook is a bold one..Mar. 286
Teflon finish .....Jan. 228
Television—Wired television can do many industrial jobs faster, safer and cheaper (N) .....Sept. *128

Temperature:
Device records changes in atmospheric fluorides (N).....June 143
Laboratory makes liquid hydrogen for use in research on low temperature problems (N).....Nov. *134
Metals for extreme temperature. M. M. Hoover (charts) .....June *212
Selecting materials and designing equipment for high temperature service. Bracs & Merims (charts & tables) .....Feb. *165
Variable-temperature heating avoids use of moving parts. J. I. Lacey (1952 PN award) .....Jan. *202
Terpineol—from turpentine (P).....June 377
Tertiary—butylamine in vulcanization accelerators .....Jan. 227
Tetracarbocybutane—for resins, adhesives, plasticizers and oils...Mar. 240
Tetraethyl lead chemicals—added capacity planned by DPA (N).....Jan. 110

Textiles:
Dacron production to be speeded by improved catalysts (P).....Dec. 352
Man-made fibers keep climbing..Mar. *205
More chemicals for textiles...Feb. *259
Peanut meal as base for Ardil, a wool-like synthetic fiber (N)..June *144
Polyvinyl acetate copolymer for textile sizing .....Apr. 270
Thermodynamics principles. T. E. Corrigan....pt 1 Sept. *237, pt 2 Oct. *237 pt 3 .....Nov. *202
Thickeners—Clarification capacity solved by nomographic chart. Machwart & Dupuis (P.N.) .....Nov. *198
Tires—Rubber substitute will make tires outwear autos .....Apr. *262

Titanium:
Commercial-size titanium plates rolled .....Oct. 114
Du Pont to boost titanium output (N) .....Apr. 151
National Lead acquires ore deposits in Florida (N) .....Mar. 112
Potassium titanium fluoride...Mar. 262
Titanium dioxide—Chemical Construction Corp. to build plant at Savannah (N) .....Dec. 127
Titanium dioxide—Glidden to help Janan produce (N) .....Mar. 138
Toluene—Catalytically reforming naphthas making toulene (P).....Aug. 346
Purifying toluene (P).....Sept. 400
Toxaphene—blending grows fast (N) .....Jan. *132

Training:
Courses on plastic materials of construction to be given by Atlas Mineral Products Co. .....June 320
How American Management Assn. trains executives .....Dec. *253
Refresher course in chemical engineering organized at Allied Chemical & Dye (N).....Oct. 138
Why all the fuss about executive development? .....Feb. *248

Transportation:
Air taxi moves management fast .....June *297
Barges carry caustic to New Jersey terminal (N) .....Oct. 136
Fork truck-trailer team-up (N) .....June *115
If you ship process products. S. P. Smith (charts) .....Mar. 222
Trichlorobenzenes—used in cancer research, fungicides and rodent repellents .....Apr. 263
Trichloroethylene—Manufacture of trichlorethylene yields hydrogen chloride also (N).....July 139
Trifluoroacetic anhydride (A).....Nov. 340
Trona—yields soda ash by new process (N) .....May *118
Tube molding of chemicals by Tube-Ice machines (N) .....Sept. *126

Tubing:
Heat transfer coefficients for heating or cooling in tubes. Y. S. Tang (chart) (P.N.) .....Dec. 174
Hints for better cuts in large glass tubing. V. S. Gupta (P.N.)....Aug. 200
Small tubing now made of titanium zirconium (N) .....Nov. 146
Turbine, steam, used as a chemical reactor (P) .....Aug. 343
Turpentine—Terpineol from turpentine (P) .....June 377

U

Ugine process—ferronickel to be made by Hanna for D.M.P.A. (N)..Apr. 114
Ultrasonic irradiation for maturing wines and liquors .....Jan. 301
Uranium—American Cyanamid developing better ways to recover uranium from its ores (N).....July. 127
Canadians trying flotation to concentrate uranium ore (N)....Aug. 143
Urea—new plant in Japan (N)....Jan. 148

V

Vacuum:
Ejectors show low rat cost. J. C. Tallman (charts & tables)....Jan. 176
High vacuum concentration to be used in heavy chemical and pulp processes (N) .....June *154
How to pick a vacuum system for your job. L. W. Hull.....Nov. *200

Valves:
All-plastic valve solves corrosion problems. O. M. Hahn (P.N.)..Sept. *234
Cost data brings economic pipe sizing up to date. Bracs & Happel (charts & tables) .....Jan. 180
Orifice valve to control fluidized beds (P) .....Aug. *344
Process piping report. T. R. Olive Dec. 187-210
Using plug valves to produce motion inside autoclaves. A. W. Billitzer (P.N.) .....Mar. *232
Vapor-phase reactions carried out in rotating annulus (P) .....July 342
Vapor pressures—Nomograph gives vapor pressures of saturated salt solutions. J. T. Hogan (P.N.)....Mar. 233
Vapor separation (P).....Dec. *344

Varnish:
Low viscosity butyrate.....July 228
Methyl glucoside .....Mar. 260
Silicone varnish .....June 271
Vegetable desprouters (A).....Nov. 333
Vermiculite—insulates molten metal. Feb. *230
Vibration—What makes a wood vibrator set-up? Frederick Marich (charts) Apr. *204
Vinyl—Primer for vinyl .....Mar. 262
Vinyl acetate shipped from Pampa, Tex. (N) .....Oct. *136
Vinyl acetate monomer—to be produced by Celanese (N) .....May 130
Vinyltoluene plant at Midland, Mich. (N) .....Aug. *122

W

Waste disposal:
Alaskan mill to burn waste from magnesia pulping (N).....Jan. 114
Alloy pigs from hogged fuel (N) .....June *122
Colorado wastes treated with special bacteria .....Dec. *126
Electrolytic process produces pure malleable iron from waste pyrrhotite. Erich Knorad (tables)..Apr. *189
Evaporator for recovery of waste sulphite liquor has flexibility and heat economy (N) .....Mar. *140
How Hanford evaporates fission wastes. C. E. Hirsch.....Nov. *184
Ion exchange process recovers chromic acid from electroplating rinse water (N) .....Aug. 146
Lignin effluent processed by Marathon (N) .....Apr. *122
Monosodium glutamate from molasses residue (N) .....June 147
Packaged plant for producing solid CO_2 (N) .....Feb. 140
Plywood waste for hardboard process (N) .....Jan. *138
Powdered bacteria in packages used in industrial waste plants (N) Apr. *120
Recovering sulphur from waste refinery gases by Shell (N).....Jan. 114
Wood chips into medium density plywood core material — flowsheet Sept. *276
Water repellent .....Oct. 369
Water repellent for textiles (A)....Sept. 390

Water Treatment:
Bay mussel and other marine organisms conquered .....Sept. 316
Cooling pond may answer your water cooling problem. J. W. Langhaar Aug. *194
Disinfectant .....Mar. 264
Sea water purification experts to help government in research (N) Jan. 118
Waterproofing material, asphaltic. June *272
Wedge washers from I-beams. A. J. Fritsche (P.N.) .....July *187

Welding:
Dry ice aids weld repairs, stops HF leakage. P. C. Ziemke (P.N.)..Jan. 203
How to service your hydraulic acetylene flash arrestors. P. M. Ziemke (P.N.) .....Sept. *235
Weld-backing compound .....July 229
Wetting agents—Quaternary ammonium salts .....Apr. 272

Wood:
Hardboard process uses plywood waste (N) .....Jan. *138
International Researcher's push South's use of timber (N).....Jan. 147
Pentachlorophenol for wood preservatives .....Jan. 226
Press converts wood waste into resin-bonded fiberboard (N)..Aug. *130
Pressure-treating wood conserves solvent, cuts costs (N).....May *150
Semi-chemical pulping flowsheet with hardwoods .....Nov. *244
Wood chips into medium density plywood core material—flowsheet Sept. *276
Worthite as a material of construction. W. E. Pratt (chart).....Nov. *264
Writing—the technical editor a new industry phenomenon. Walter & Mills .....Aug. *250
Writing letters—How to write poor letters Jan. *246

X

Xylene—Para xylene to be made by Humble Oil in new unit (N)..Feb. 130
Separation of ethylbenzene from xylene fraction (P).....June 378

Y

Yeast made as byproduct of sulfite pulping (N) .....Oct. 150

Z

Zeprex, a concrete substitute.....July 229
Zirconium—Corrosion resistance of Zirconium. J. D. Roach (tables)..Sept. *304
National Lead acquires ore deposits in Florida (N) .....Mar. 112
Zirconium oxide—U. S. Bureau of Mines adopts chlorination of hafnium-free zirconium oxide .....Sept. *158

NOTES—(A) Abstract; (c) Comment; (ed) Editorial; (E.N.) Equipment, News. * Illustrated; (N) News; (P.N.) Plant Notebook

AUTHOR'S INDEX

Ahlness, Robert L.: Schedule your maintenance for minimum cost....May 236

Baird, R. J. & G. M. Machwart: Nomographic gives settling rates for spherical particles .....Dec. *176
Ballard, Clarence E.: Sheet plastic aids in estimating areas of irregular shapes .....Sept. 234
Beattie, R. D. & J. E. Vivian: Watch your language when making cost estimates .....Jan. 172
Billitzer, A. W.: Using plug valves to produce motion inside autoclaves Mar. *232
Bliss, Charles: Tubular process furnaces June *208
Bonilla, Charles F.: Advances in heat transfer .....June *228
Braca, R. M. & J. Happel: New cost data bring economic pipe sizing up to date .....Jan. 180
Braca, R. M. & R. Merims: High temperature service .....Feb. *165
Bras, G. H.: Design of cooler condensers for vapor-gas mixtures, Pt 1 Apr. 223 Pt 2 May 238
Britton, O. J. & E. A. Sanford, Glassed steel .....Mar. *294
Bruner, W. M. & P. J. Wayne: Industrial plastics .....July *193
Butcher, Ira A.: Build better design into your rectangular tanks .....Aug. *201
Sour cost estimates.....Nov. 170

Cameron, C. S., H. R. Kistin & A. P. Carter: Where do construction dollars go? .....Nov. *191
Carberry, James J.: Media for heat transport .....June 225
Carter, A. P., H. R. Kistin & C. S. Cameron: Where do construction dollars go? .....Nov. *191
Carter, T. L. & R. F. Uncles: Watch those hidden packaging costs..Aug. *185
Cathey, T. F.: How not to be "just another researcher" .....May *282
Cheney, P. C. & T. A. Fernside: Fast estimate for power plant costs June *239
Cheremisinoff, Paul N.: Oil circulation heating system easily built for pilot plant .....Nov. *197
Chilton, Cecil H.: Electric heating methods .....June *195
Condon, Edward U.: More on blending of three or more components—five new aspects .....June *247
Cook, Robert S.: Curves can simplify your problems in estimating cooling tanks .....July *184
Quick method gives specific gravities of mixtures .....Mar. 233
Cooper, C. K.: Tag lines and valves permanently .....Aug. 201
Cornell, E. R.: How to move and meter liquid sodium .....Sept. *212
Corrigan, Thomas E.: Thermodynamics principles....pt 1 Sept. *237, pt 2 Oct. *237, pt 3 Nov. *203
Corrigan, Thomas E. & A. F. Johnson: Compression and expansion pt 1 Dec. *211
Cunningham, W. A. & H. F. Rase: Seniors talk back to recruiters .....Oct. 286

DallaValle, J. M.: How to estimate dust collector costs .....Nov. *177
Dalton, Thomas N.: Use a mail scale to find blower capacity .....Oct. 211
Davis, Dale S.: Nomograph gives enthalpies of paraffin hydrocarbon gases Aug. *201
Short method for interplating by the Lagrange formula .....Nov. *198
Debacher, D. E., J. M. Gill & Marshall Sittig: Latest sodium handling techniques .....Mar. *217
Decker, W. H.: Floating weir box provides constant feed rate.....July *196
Devore, A.: Simplified method for sizing gas heat exchangers .....July 187
Dupuis, Irving & G. M. Machwart: Thickener clarification capacity solved by nomographic chart..Nov. *198

Edwards, T. W.: Cut impeller erosion—easily .....Dec. *170
Elmer, Thomas H.: Preheat increases heating rate in a processing furnaces .....Jan. *203
Erwood, E. J.: Improvement in methods of checking softening points..Sept. *235
Fahnoe, Frederick: Reduction potential instrument shows low air concentration in steam .....May *232
Ferencs, P. & B. H. Lloyd: Next time, use statistics .....Apr. 219
Statistics can help in solving process problems .....May 207
Fernside, T. A. & P. C. Cheney: Fast estimate for power plant costs....June *239
Fritsche, Allen J.: Wedges cut from I-beams make good wedge washers July *187

Gialanella, Joseph: Curves cut work in determining electric energy for heating .....May *234
Fused quartz .....Apr. *302
Gibadlo, Frank: How vacuum dryers were converted for three-way operation .....May *235
Gibbons, Edward: Here's help in sizing orifices for controlling steam flow Mar. 234
Statistics can help in solving process
Gieskieng, David H.: How an inner tube can serve as a scale for weighing in field .....Nov. *196
Gill, J. M., D. E. Debacher & Marshall Sittig: Latest sodium handling techniques .....Mar. *217
Gilmour, C. H.: Shortcut to heat exchanger design ....pt 2 Mar. 226 pt 3 Apr. 214, pt. 4 Oct. *203
Gordon, Joseph: Wanted: chlorine without caustic .....May 188
Greenwood, Brian: Simple way to make accelerated protective-coating tests Nov. 199
Guelich, Joseph: Safety is your business May *211
Gupta, V. S.: Hints for better cuts in large glass tubing .....Aug. 200

Hahn, Oliver M.: Unconventional all-plastic valve solves corrosion problems Sept. *234
